Subject: Bega Valley Shire Council rates

We, as ratepayers, have strong objection to the proposed Special Rate Variation increases. There has been too many variations over the past years and it has made it impossible for many of us to keep living in this shire. Unfortunately though, to market our property would not bring the desired amount as there are too many properties on the market for the same reason - IT'S BECOMING TOO EXPENSIVE FOR US TO LIVE HERE!! We therefore request through you, that IPART reject Council's application for a special variation.
