

5th March, 2015

Dear Mr. Michael Seery,

I am writing to protest on the rate increase of 40% over so many years to the Blue Mountains council.

They need to fix things as so much money is wasted on silly stuff and also 24% goes on staff wages which are very high.

In 4 years we've had very little done in our streets here and if you ring up for something or ask they put you off and don't help.

I wanted a tree lopped that hangs over my house (from a neighbour who is absent) It is very diseased at bottom. A lady come and just took a photo and was no help at all. I told me to contact neighbour

(2)

who has never lived there, would not give his address to write to him.

Now its rented so much harder to get done. I'll just have to wait now and if it falls I'll see him.

I'm fed up with this council, they built a neighbourhood centre at Sperrywood: but our yoga class that used to go there has been told there is no room for them now and have doubled the rents.

As an aged pensioner who has to budget please look into the council affairs, they are not real honest.

A lot of people I talk to are very fed up with them.

Sincerely
[REDACTED]
