

IPART PO Box K35 Haymarket Post Shop
NSW 1240

In this area where I live, The local area council (Blue Mountains city council) is Planning to raise the Rates that they charge us here by up to 40% over the next four years. The justification they have for this is a survey that they (the council) conducted and about 4000 ratepayers responded, however there are approximately 30,000 who did not take part in this survey . So it is not an accurate indication of the overall ratepayers opinion on this. I ask you to look into this matter regarding this rate hike. I feel strongly about this because this council has NOT shown itself able to conduct itself in a financially responsible way, being more a Financial burden on the local community which can least afford its habit of overspending. I have attached an advertisement from the BMCC. Showing the pompous way they view themselves. There is much more I could say but I shall leave it there. I hope you can help us.

Regards [Redacted]
