**Subject:** Support for the special rate variation

To whom it may concern,

I understand Ashfield Council has consulted with the community about the Special Rate Variation, which I support for the following reasons:

1. Ashfield swimming pool/Aquatic centre needs to be upgraded. I swim often at the centre. It is really unsatisfactory the way the centre looks at the moment. Why have council staff in charge of the pool let it get to this state; it's shameful? Work needs to be done as soon as possible. For example there are many tiles falling off the outdoor pool and there is not enough lanes to swim in. Ashfield NSW is a highly populated area. Can you please do something about this ASAP?

2. Ashfield urgently needs a multi story car park built at Ashfield train station.

3. The Arthur Street, Ashfield NSW or the goat track, has many small and very large pot holes. The street is a by-pass road and a lot of vehicles use this road. This road needs urgent work as well.

If there are any enquiries I can be also contacted on [REDACTED]

Regards,
