

2. Infrastructure that is responsibly planned, developed and maintained

What our community told us:

- Recreation infrastructure from footpaths to sporting facilities is very important to us and our way of life.
- We acknowledge that we have fantastic sporting and recreation facilities within our community
- Road safety and standards are important to us given our need to travel within the region
- We appreciate the significant cost to maintain our infrastructure and support appropriate development and management processes to maintain our infrastructure as efficiently as possible

How will we know that our objectives have been met?

- Consistent town signage including all entrance points to the town
- Our historic landmarks are protected for the future
- The development and implementation of a footpath strategy including planning for the provision of walking/bike tracks throughout the community
- Attraction of funding to support the upgrade of the Jerilderie swimming pool
- Development of the Jerilderie Recreation Master plan
- Our roads consistently maintained to a high standard
- Implementation of responsible land use practices and development

2. Infrastructure that is responsibly planned, developed and maintained

Outcome 2.1: Infrastructure that supports our community identity

Objective 2.1.1: Consistent and recognisable development themes throughout the shire

Objective 2.1.2: Protection of historic buildings and landmarks

Outcome 2.2: The ability to be an active community

Objective 2.2.1: Infrastructure that facilitates a community that is physically active

Outcome 2.3: A safe and accessible shire to travel

Objective 2.3.1: Deliver roads that ensure safe and enjoyable vehicular passage throughout the shire

Objective 2.3.2: Effective transport options and supporting infrastructure

Outcome 2.4: Infrastructure for our future

Objective 2.4.1: Development infrastructure that supports growth within our community

Objective 2.4.2: Land use that supports the development of our community
