Submission: I think the council should not be looking at doing the future projects they have proposed as they have not got the funds to do them. Why should we the rate payers be put into financial hardship because the council has not managed the money they have had over the last 10 or so years to fund the things that they want to do. Not all residents of the Eurobodalla pay rates so why should some of the community be paying extra hard earned money to fund things for the entire community. Maybe council should look at raising money through community fundraisers or cutting back on internal spending or putting off some of these projects until they or the community can afford them. I definitely can't afford a rate hike of 6.5%. Please do not pass this extra rate rise. Kind regards [REDACTED] Eurobodalla Rate Payer
