Background and Methodology

Background and Methodology

Wingecarribee Shire Council sought to examine community attitudes and perceptions towards current and future services and facilities provided by Council. Key objectives of the research included:

- Assessing and establishing the community's priorities and satisfaction in relation to Council activities, services, and facilities
- Identifying the community's overall level of satisfaction with Council's performance
- Identifying the community's level of satisfaction with regards to contact they have had with Council staff
- Identifying trends and benchmark results against the research conducted previously

To facilitate this, Micromex Research was contracted to develop a survey template that enabled Council to effectively analyse attitudes and trends within the community.

Questionnaire

Micromex Research, together with Wingecarribee Shire Council, developed the questionnaire.

A copy of the questionnaire is provided in Appendix B.

Data collection

The survey was conducted during the period 24th – 30th June 2015 from 4:30pm to 8:30pm Monday to Friday, and from 10am to 4pm Saturday.

Survey area

Wingecarribee Shire Council Government Area.

Sample selection and error

The sample consisted of a total of 407 residents. The selection of respondents was by means of a computer based random selection process using the electronic White Pages.

A sample size of 407 residents provides a maximum sampling error of plus or minus 4.9% at 95% confidence.

This means that if the survey was replicated with a new universe of n=407 residents, 19 times out of 20 we would expect to see the same results, i.e. +/- 4.9%.

For the survey under discussion the greatest margin of error is 4.9%. This means, for example that the answer "satisfied" (33%) to the overall satisfaction question could vary from 28% to 38%.

The sample was weighted by age and gender to reflect the 2011 ABS census data.

Interviewing

Interviewing was conducted in accordance with the AMSRS (Australian Market and Social Research Society) Code of Professional Behaviour.

Background and Methodology

Prequalification

Participants in this survey were pre-qualified as not being employed, nor having an immediate family member employed, by Wingecarribee Shire Council.

Data analysis

The data within this report was analysed using Q Professional. To identify the statistically significant differences between the groups of means, 'One-Way Anova tests' and 'Independent Samples T-tests' were used. 'Z Tests' were also used to determine statistically significant differences between column percentages.

Ratings questions

The Unipolar Scale of 1 to 5, where 1 was the lowest importance or satisfaction and 5 the highest importance or satisfaction, was used in all rating questions.

This scale allowed for a mid-range position for those who had a divided or neutral opinion.

Note: Only respondents who rated services/facilities a 4 or 5 in importance were asked to rate their satisfaction with that service/facility.

Percentages

All percentages are calculated to the nearest whole number and therefore the total may not exactly equal 100%.

Errors: Data in this publication is subject to sampling variability because it is based on information relating to a sample of residents rather than the total number (sampling error).

In addition, non-sampling error may occur due to imperfections in reporting and errors made in processing the data. This may occur in any enumeration, whether it is a full count or sample.

Efforts have been made to reduce both sampling and non-sampling error by careful design of the sample and questionnaire, and detailed checking of completed questionnaires.

As the raw data has been weighted to reflect the real community profile of Wingecarribee Shire Council, the outcomes reported here reflect an 'effective sample size'; that is, the weighted data provides outcomes with the same level of confidence as unweighted data of a different sample size. In some cases this effective sample size may be smaller than the true number of surveys conducted.

Sample Profile

Sample Profile

Key Findings

Key Findings

Overview (Overall satisfaction)

Summary

82% of residents were at least 'somewhat satisfied' with the performance of Council in the last 12 months. From a mean score perspective, this result remains on par with 2012 and is in line with the 'Regional' Benchmark.

There were similar levels of satisfaction across the demographics.

Q6a. Overall, for the last 12 months, how satisfied are you with the performance of Council, not just on one or two issues, but across all responsibility areas?

	Overall 2015	Overall 2012	Overall 2010	18-34	35-49	50-64	65+	Male	Female	Town	Village
Mean ratings	3.22	3.14	3.45	3.29	3.13	3.19	3.29	3.14	3.29	3.26	3.15

NSW LGA BRAND SCORES	Metro	Regional	All of NSW	Wingecarribee Shire Council 2015
Mean ratings	3.45	3.22	3.31	3.22

Scale: 1= not at all satisfied, 5= very satisfied

Key Findings

Council's Image within the Community

Summary

43% of residents rated Council's image within the community as 'good' to 'excellent'. Image scores appear to have consolidated from where they were in 2012, however, compared to Micromex's LGA Brand Scores, there are opportunities to strengthen Council's brand perceptions among residents.

Residents aged 18-34 rated Council's image significantly higher.

Q6c. Overall, how would you rate Council's image within the community?

	Overall 2015	Overall 2012	18-34	35-49	50-64	65+	Male	Female	Town	Village
Mean ratings	3.24	3.16	3.82▲	3.04	3.00	3.29	3.19	3.29	3.23	3.26

NSW LGA BRAND SCORES – COUNCIL'S IMAGE	Metro	Regional	All of NSW	Wingecarribee Shire Council 2015
Mean ratings	3.83▲	3.38	3.55▲	3.24▼

Scale: 1 = very poor, 6 = Excellent

▲▼ = significantly higher/lower (by group)

Key Findings

Best Aspects about Living in the Wingecarribee Area

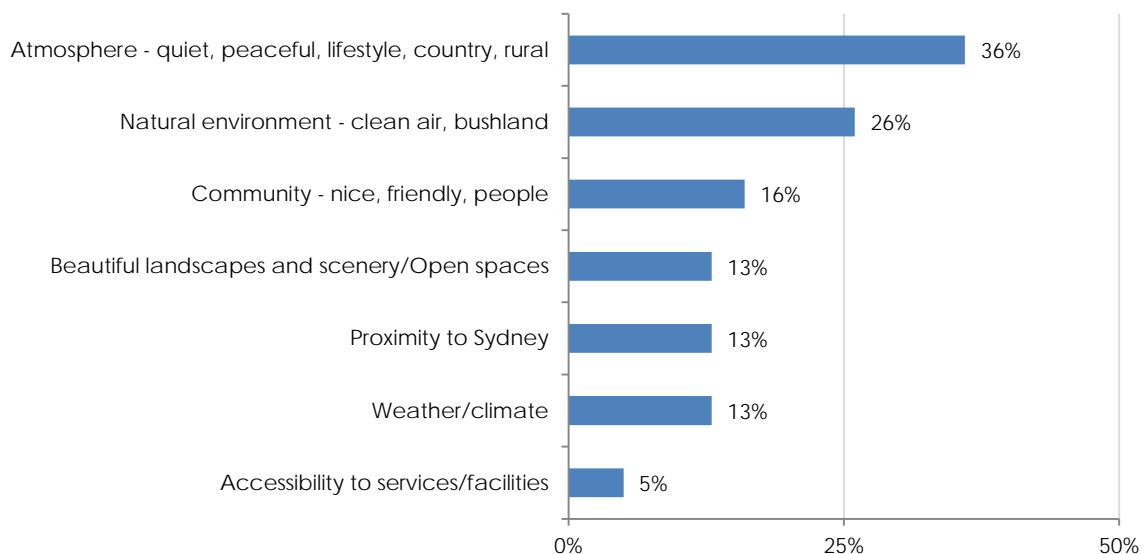

Summary

Residents felt the best thing about living in the Wingecarribee area was the 'atmosphere', specifically in relation to the quiet and peaceful lifestyle and the country/rural characteristics, as well as the natural environment and the nice/friendly community. Further to this, residents value being able to experience living in a country/rural atmosphere but also being in close proximity to Sydney.

Q6d. Thinking generally about living in the Wingecarribee area, what do you feel is the best thing about living here?

Word Frequency Tagging

Verbatim responses for this question were collated and entered into analytical software. This analysis 'counts' the number of times a particular word or phrase appears and, based on the frequency of that word or phrase, a font size is generated. The larger the font, the more frequently the word or sentiment is mentioned.

Base: n = 407

Key Findings

Top Priority for Council in the Next Four Years

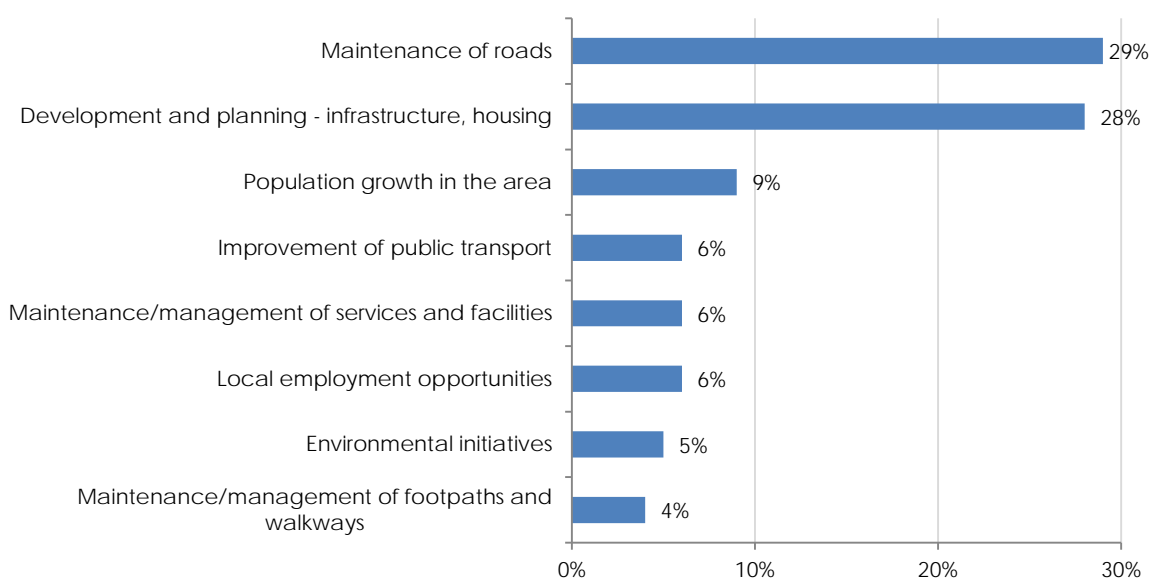

Summary

Residents believe Council should focus on the maintenance of roads, development and planning of infrastructure and housing in the area, and take into account the growing population in Wingecarribee over the next four years. Following on from this, the maintenance and management of local infrastructure and services and local employment opportunities will also need to be improved and expanded in order to cater for the growing population.

Q6e. Thinking about the next four years, what do you think is the top priority for Council to focus on?

Word Frequency Tagging

Verbatim responses for this question were collated and entered into analytical software. This analysis 'counts' the number of times a particular word or phrase appears and, based on the frequency of that word or phrase, a font size is generated. The larger the font, the more frequently the word or sentiment is mentioned.

Base: n = 407

Key Findings

Comparison to LGA Benchmarks

4 of the criteria, 'cleanliness and functionality of public toilets', 'community safety/crime prevention', 'support for aged persons', and 'cycle paths and walking tracks', received ratings greater than the 0.15 scope, whilst 'opportunities to participate in Council decision making', 'availability of car parking in the town and village centres', 'provision and quality of footpaths', 'provision and maintenance of local parks and gardens', 'overall satisfaction with the way contact was handled', 'providing adequate drainage', and 'condition of local roads' fell below.

Service/Facility	Wingecarribee Shire Council Satisfaction Scores	Benchmark Variances
Cleanliness and functionality of public toilets	3.41	+0.27▲
Community safety/crime prevention	3.72	+0.26▲
Support for aged persons	3.72	+0.18▲
Cycle paths and walking tracks	3.37	+0.17▲
Support for people with a disability	3.50	+0.13
Encouraging recycling	4.01	+0.12
Domestic garbage collection	4.19	+0.09
Support for local business and employment	3.26	+0.08
Support for community environmental initiatives	3.43	+0.06
Provision and maintenance of swimming pools	3.70	+0.03
Provision and maintenance of community halls/facilities	3.65	+0.00
Provision and operation of libraries	4.11	-0.03
Restoration of natural bushland	3.53	-0.03
Provision and maintenance of sporting facilities	3.65	-0.07
Overall satisfaction with the level of communication Council has with the community	3.43	-0.07
Managing development and growth	3.00	-0.07
Support for youth	3.07	-0.09
Revitalisation/beautification of town and village centres as well as the surrounding areas	3.23	-0.11
Provision and maintenance of playgrounds	3.61	-0.12
Protecting heritage values and buildings	3.37	-0.13
Council provision of information to residents	3.20	-0.14
Opportunities to participate in Council decision making	2.82	-0.16▼
Availability of car parking in the town and village centres	2.80	-0.20▼
Provision and quality of footpaths	2.82	-0.22▼
Provision and maintenance of local parks and gardens	3.50	-0.22▼
Overall satisfaction with the way contact was handled	3.57	-0.37▼
Providing adequate drainage	2.88	-0.41▼
Condition of local roads	2.30	-0.49▼

Scale: 1 = not at all satisfied, 5 = very satisfied

▲ ▼ = positive/negative difference greater than 0.15 from LGA Benchmark

Note: Benchmark differences are based on assumed variants of +/- 0.15, with variants beyond +/- 0.15 more likely to be significant

Key Findings

Key Importance Trends

Compared to the previous research conducted in 2012, there were significant increases in residents' levels of importance with 9 of the 39 services and facilities provided by Council, these were:

- Support for the Aboriginal community (3.92 cf. 3.65)
- Provision and maintenance of playgrounds (4.13 cf. 3.97)
- Availability of, and access to, public transport (4.08 cf. 3.85)
- Provision and maintenance of swimming pools (4.03 cf. 3.68)
- Protecting heritage values and buildings (3.99 cf. 3.83)
- Providing adequate drainage (4.33 cf. 4.15)
- Support for community environmental initiatives (4.08 cf. 3.94)
- Council provision of information to residents (4.36 cf. 4.24)
- Opportunities to participate in Council decision making (4.07 cf. 3.89)

Key Satisfaction Trends

Compared to the previous research conducted in 2012, there were significant increases in residents' levels of satisfaction with 22 of the 39 services and facilities provided by Council, these were:

- Community safety/crime prevention (3.72 cf. 3.50)
- Support for people with a disability (3.50 cf. 3.32)
- Support for aged persons (3.72 cf. 3.47)
- Support for youth (3.07 cf. 2.73)
- Festivals and events (3.76 cf. 3.56)
- Condition of local roads (2.30 cf. 2.07)
- Availability of car parking in the town and village centres (2.80 cf. 2.57)
- Provision and quality of footpaths (2.82 cf. 2.65)
- Provision and maintenance of sporting facilities (3.65 cf. 3.46)
- Cleanliness and functionality of public toilets (3.41 cf. 3.21)
- Provision and maintenance of swimming pools (3.70 cf. 2.98)
- Provision and maintenance of community halls/facilities (3.65 cf. 3.48)
- Litter control and rubbish dumping (3.40 cf. 3.22)
- Encouraging recycling (4.01 cf. 3.52)
- Encouraging waste reduction initiatives (3.54 cf. 3.20)
- Managing development and growth (3.00 cf. 2.82)
- Healthy, natural urban and streams and creeks but not rivers (3.37 cf. 3.14)
- The Resource Recovery Centre (3.96 cf. 3.51)
- Restoration of natural bushland (3.53 cf. 3.36)
- Green waste collection (4.30 cf. 2.27)
- Support for local business and employment (3.26 cf. 3.07)
- Support for tourism (3.71 cf. 3.55)

Key Findings

Identifying Priorities via Specialised Analysis (Explanation)

The specified research outcomes required us to measure both community importance and community satisfaction with a range of specific service delivery areas. In order to identify core priorities, we undertook a 2 step analysis process on the stated importance and rated satisfaction data, after which we conducted a third level of analysis. This level of analysis was a Shapley Regression on the data in order to identify which facilities and services are the actual drivers of overall satisfaction with Council.

By examining both approaches to analysis we have been able to:

1. Identify and understand the hierarchy of community priorities
2. Inform the deployment of Council resources in line with community aspirations

Step 1. Performance Gap Analysis (PGA)

PGA establishes the gap between importance and satisfaction. This is calculated by subtracting the mean satisfaction score from the mean importance score. In order to measure performance gaps, respondents are asked to rate the importance of, and their satisfaction with, each of a range of different services or facilities on a scale of 1 to 5, where 1 = low importance or satisfaction and 5 = high importance or satisfaction. These scores are aggregated at a total community level.

The higher the differential between importance and satisfaction, the greater the difference is between the provision of that service by Wingecarribee Shire Council and the expectation of the community for that service/facility.

In the table on the following page, we can see the 39 services and facilities that residents rated by importance and then by satisfaction.

When analysing the performance gaps, it is important to recognise that, for the most part, a gap of up to 1.0 is acceptable when the initial importance rating is 4.0+, as it indicates that residents consider the attribute to be of 'high' to 'very high' importance and that the satisfaction they have with Wingecarribee Shire Council's performance on that same measure, is 'moderate' to 'moderately high'.

For example, 'support for people with a disability' was given an importance score of 4.43, which indicates that it is considered an area of 'very high' importance by residents. At the same time it was given a satisfaction score of 3.50, which indicates that residents are 'moderately satisfied' with Wingecarribee Shire Council's performance and focus on that measure.

In the case of a performance gap such as for 'green waste collection' (3.87 importance vs. 4.30 satisfaction), we can identify that the facility/service has only 'moderately high' importance to the broader community, but for residents who feel that this facility is important, it is providing a 'very high' level of satisfaction.

Key Findings

When analysing performance gap data, it is important to consider both stated satisfaction and the absolute size of the performance gap.

Performance Gap Ranking

Ranking 2012	Ranking 2015	Service/Facility	Importance Mean	Satisfaction Mean	Performance Gap
1	1	Condition of local roads	4.58	2.30	2.28
2	2	Availability of car parking in the town and village centres	4.33	2.80	1.53

36	33	Domestic garbage collection	4.49	4.19	0.30
30	34	Provision and maintenance of community halls/facilities	3.93	3.65	0.28
28	35▲	The Resource Recovery Centre	4.18	3.96	0.22
37	36	Dog control	3.80	3.63	0.17
39	37	Provision and operation of libraries	4.20	4.11	0.09
38	38	Festivals and events	3.73	3.76	-0.03
4	39▲	Green waste collection	3.87	4.30	-0.43

Scale: 1 = not at all important/not at all satisfied, 5 = very important/very satisfied

▲▼ = significantly positive/negative shift in ranking (2015 compared to 2012)

Key Findings

When we examine the 12 largest performance gaps, we can identify that all of the services or facilities have been rated as 'high' to 'extremely high' in importance. Resident satisfaction for all of these areas is between 2.30 and 3.40, which indicates that resident satisfaction for these measures is 'low' to 'moderate'.

Ranking	Service/ Facility	Importance Mean	Satisfaction Mean	Performance Gap
1	Condition of local roads	4.58	2.30	2.28
2	Availability of car parking in the town and village centres	4.33	2.80	1.53
3	Provision and quality of footpaths	4.32	2.82	1.50
4	Providing adequate drainage	4.33	2.88	1.45
5	Availability of, and access to, public transport	4.08	2.79	1.29
6	Managing development and growth	4.27	3.00	1.27
7	Opportunities to participate in Council decision making	4.07	2.82	1.25
8	Support for youth	4.30	3.07	1.23
9	Enforcement of development and building regulations	4.17	2.98	1.19
10	Litter control and rubbish dumping	4.58	3.40	1.18
11	Support for local business and employment	4.42	3.26	1.16
	Council provision of information to residents	4.36	3.20	1.16

The key outcomes of this analysis would suggest that, while there are opportunities to improve satisfaction across a range of services/facilities, 'condition of local roads' is the area of least relative satisfaction.

Note: Performance gap is the first step in the process, we now need to identify comparative ratings across all services and facilities to get an understanding of relative importance and satisfaction at an LGA level. This is when we undertake step 2 of the analysis.

Key Findings

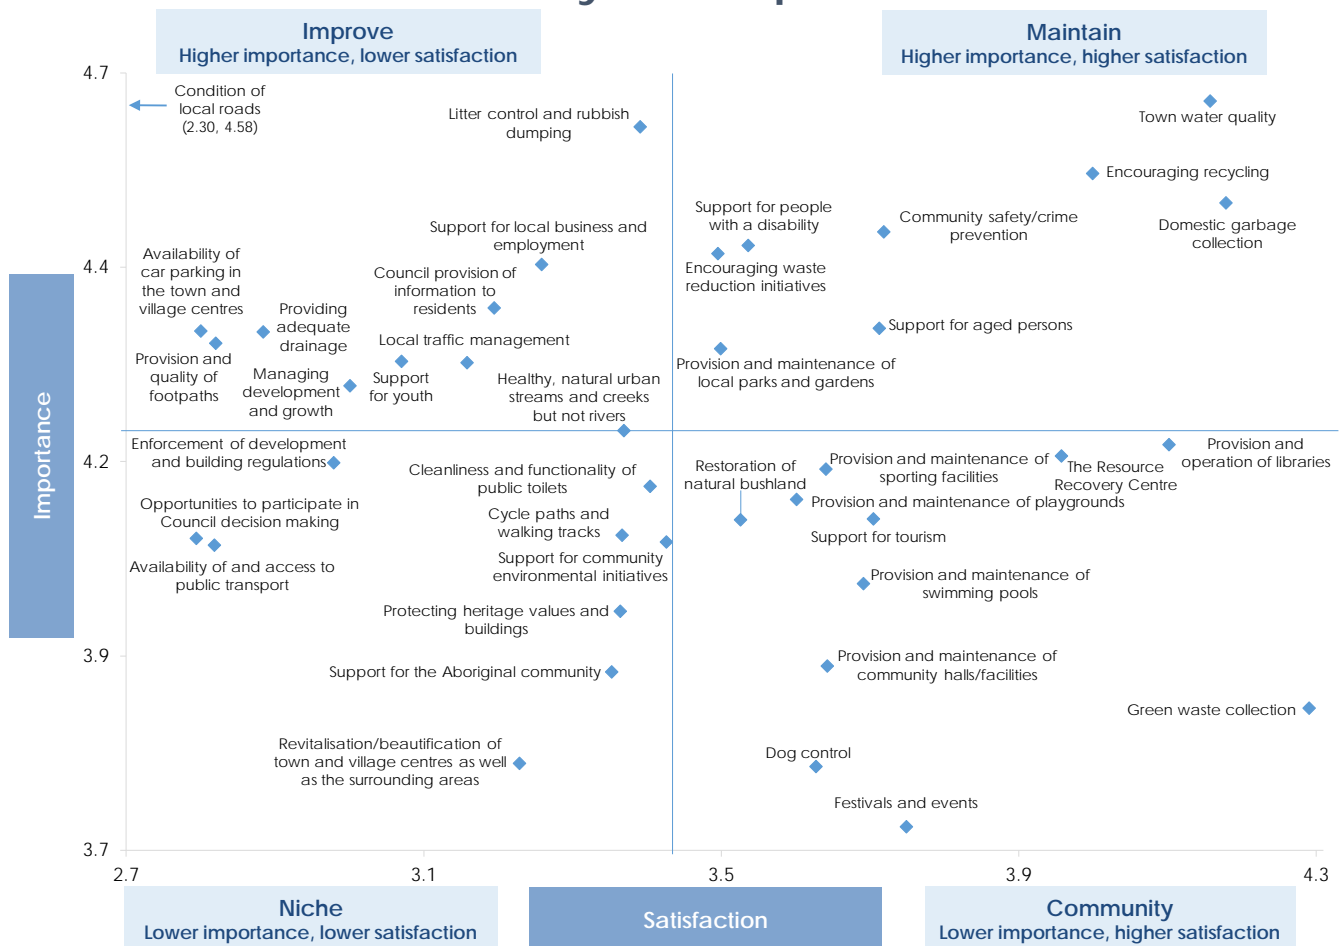

Quadrant Analysis

Step 2. Quadrant Analysis

Quadrant analysis is a useful tool for planning future directions. It combines the stated needs of the community and assesses Wingecarribee Shire Council's performance in relation to these needs.

This analysis is completed by plotting the variables on x and y axes, defined by stated importance and rated satisfaction. We aggregate the mean scores for stated importance and rated satisfaction to identify where the facility or service should be plotted. For these criteria, the average stated importance score was 4.21 and the average rated satisfaction score was 3.44. Therefore, any facility or service that received a mean stated importance score of ≥ 4.21 would be plotted in the higher importance section and, conversely, any that scored < 4.21 would be plotted into the lower importance section. The same exercise is undertaken with the satisfaction ratings above, equal to or below 3.44. Each service or facility is then plotted in terms of satisfaction and importance, resulting in its placement in one of four quadrants.

Quadrant Analysis – Importance v Satisfaction

Key Findings

Explaining the 4 quadrants

Attributes in the top right quadrant, **MAINTAIN**, such as 'town water quality', are Council's core strengths, and should be treated as such. Maintain, or even attempt to improve your position in these areas, as they are influential and address clear community needs.

Attributes in the top left quadrant, **IMPROVE**, such as 'availability of car parking in the town and village centres', are areas where Council is perceived to be currently under-performing and are key concerns in the eyes of your residents. In the vast majority of cases you should aim to improve your performance in these areas to better meet the community's expectations.

Attributes in the bottom left quadrant, **NICHE**, such as 'enforcement of development and building regulations', are of a relatively lower priority (and the word 'relatively' should be stressed – they are still important). These areas tend to be important to a particular segment of the community.

Finally, attributes in the bottom right quadrant, **COMMUNITY**, such as 'restoration of natural bushland', are core strengths, but in relative terms they are deemed less overtly important than other directly obvious areas. However, the occupants of this quadrant tend to be the sort of services and facilities that deliver to community liveability i.e. make it a good place to live.

Recommendations based only on stated importance and satisfaction have major limitations, as the actual questionnaire process essentially 'silos' facilities and services as if they are independent variables, when they are in fact all part of the broader community perception of Council performance.

Residents' priorities identified in stated importance/satisfaction analysis often tend to be in areas that are problematic. No matter how much focus a Council dedicates to 'condition of local roads', it will often be found in the **IMPROVE** quadrant. This is because, perceptually, the condition of local roads can always be better.

Furthermore, the outputs of stated importance and satisfaction analysis address the current dynamics of the community, they do not predict which focus areas are the most likely agents to change the community's perception of Council's overall performance.

Therefore, in order to identify how Wingecarribee Shire Council can actively drive overall community satisfaction, we conducted further analysis.

The Shapley Value Regression

This model was developed by conducting specialised analysis from over 30,000 LGA interviews conducted since 2005. In essence, it proved that increasing resident satisfaction by actioning the priorities they stated as being important does not necessarily positively impact on overall satisfaction with the Council. This regression analysis is a statistical tool for investigating relationships between dependent variables and explanatory variables.

In 2014, we revised the Shapley Regression Analysis to identify the directional contribution of key services and facilities with regard to optimisers/barriers with Council's overall performance.

What Does This Mean?

The learning is that if we only rely on the stated community priorities, we will not be allocating the appropriate resources to the actual service attributes that will improve overall community satisfaction. Using regression analysis we can identify the attributes that essentially build overall satisfaction. We call the outcomes 'derived importance'.

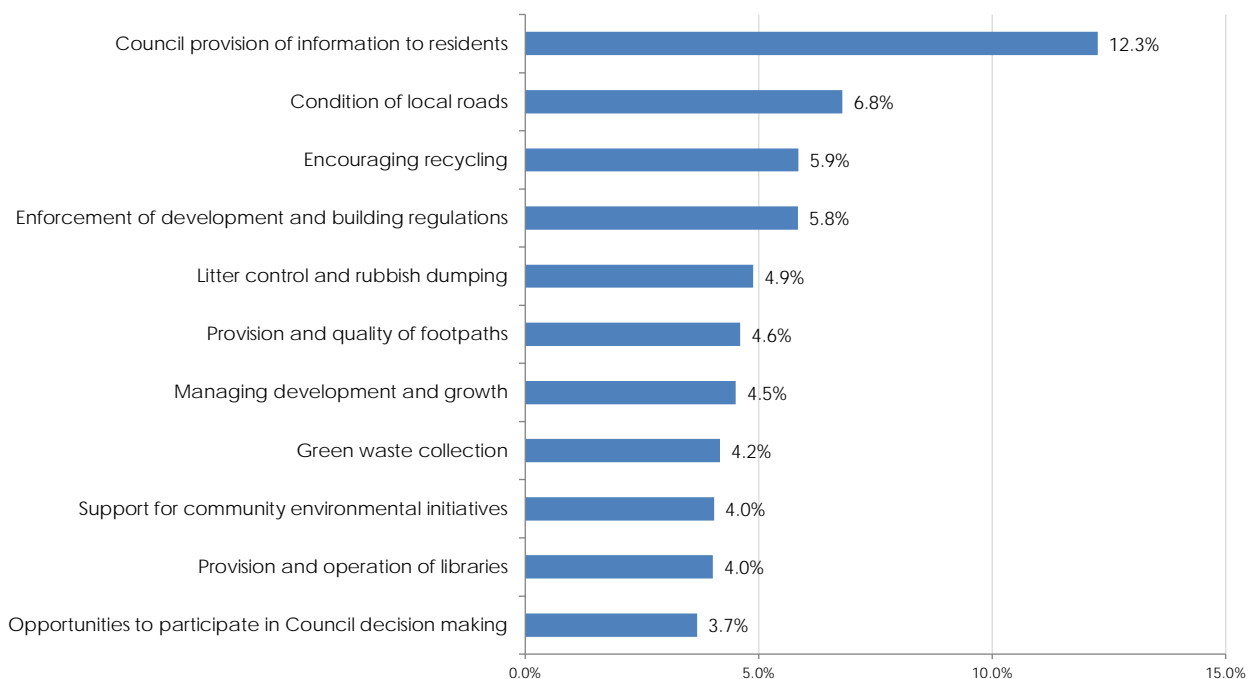

Key Findings

Key Drivers of Satisfaction with Wingecarribee Shire Council

The results in the chart below provide Wingecarribee Shire Council with a complete picture of both the extrinsic and intrinsic community priorities and motivations and identify what attributes are the key drivers of community satisfaction.

These top 11 services/facilities account for over 60% of overall satisfaction with Council. This indicates that the remaining 28 attributes we obtained measures on have only a limited impact on the community's satisfaction with Wingecarribee Shire Council's performance. Therefore, whilst all 39 service/facility areas are important, only a number of them are significant drivers of the community's overall satisfaction with Council.

These Top 11 Indicators Contribute to Over 60% of Overall Satisfaction with Council

The contributors to satisfaction are not to be misinterpreted as an indication of current dissatisfaction

These 11 services/facilities are the key community priorities and by addressing these, Wingecarribee Shire Council will improve overall community satisfaction. The score assigned to each area indicates the percentage of influence each attribute contributes to overall satisfaction with Council.

In the above chart, 'provision and operation of libraries' contributes 4.0% towards overall satisfaction, while 'Council provision of information to residents' (12.3%) is a far stronger driver, contributing over three times as much to overall satisfaction with Council.

Key Findings

Clarifying Priorities

By mapping satisfaction against derived importance we can see for some of the core drivers, Council is already providing 'moderately high' or greater levels of satisfaction, i.e. 'encouraging recycling', 'provision and operation of libraries' and 'green waste collection'. Council should look to maintain/consolidate their delivery in these areas.

It is also apparent that there is room to elevate satisfaction within the variables that fall in the 'low' and 'moderate satisfaction' regions of the chart. If Wingecarribee Shire Council can address these core drivers, they will be able to improve resident satisfaction with their performance.

This analysis indicates that 'Council provision of information to residents', 'managing development and growth', 'litter control and rubbish dumping', and 'support for community environmental initiatives', while performing moderately satisfactory, could be consolidated.

Further to this, areas such as 'condition of local roads', 'enforcement of development and building regulations', 'provision and quality of footpaths', and 'opportunities to participate in Council decision making' are all issues Council should address and clarify resident expectations of Council's position and advocacy on these matters.

Key Findings

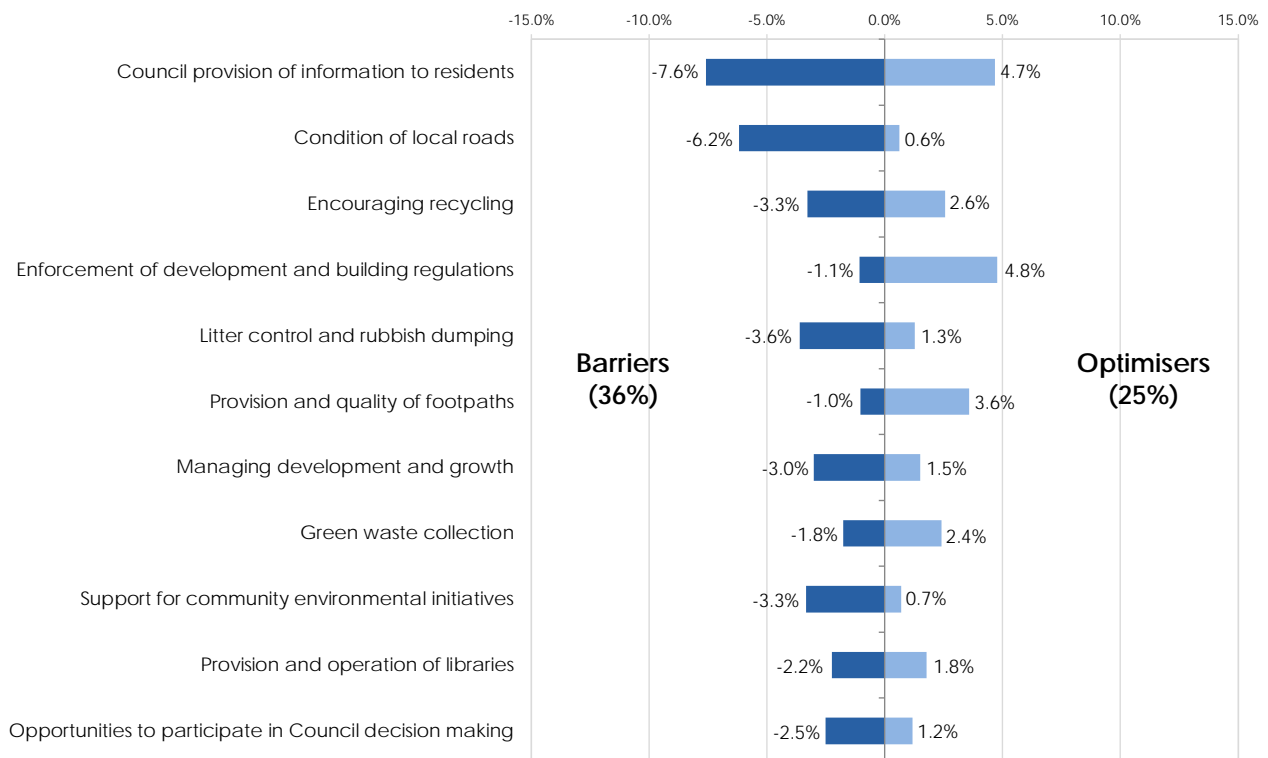

Advanced Shapley Outcomes

The chart below illustrates the positive/negative contribution the key drivers provide towards overall satisfaction. Some drivers can contribute both negatively and positively depending on the overall opinion of the residents.

The scores on the negative indicate the contribution the driver makes to impeding transition towards satisfaction. If we can address these areas we will see a lift in our future overall satisfaction results, as we will positively transition residents who are currently 'not at all satisfied' towards being 'satisfied' with Council's overall performance.

The scores on the positive indicate the contribution the driver makes towards optimising satisfaction. If we can address these areas we will see a lift in our future overall satisfaction results, as we will positively transition residents who are currently already 'somewhat satisfied', towards being more satisfied with Council's overall performance.

Key Contributors to Barriers/Optimisers

Different levers address the different levels of satisfaction across the community

Summary and Recommendations

Summary and Recommendations

Summary

Wingecarribee Shire Council is providing at least a moderate level of satisfaction for 32 of the 39 service/facility areas and overall satisfaction with council performance remains in line with the previous survey.

From a performance perspective there have been some marked improvements with community satisfaction significantly increasing for 22 of the 39 service/facility areas measured. Considering this improvement it would be expected that overall satisfaction should have also increased, however it has remained static. This indicates that external factors beyond the delivery of services/facilities are impacting and hindering the perception of Council's performance and Council's image. In other councils we have worked with, this type of result has been caused by political divisions between councillors and/or disputes between senior management and the councillors. In 2012 we conducted a NSW LGA branding study and the results demonstrated that outside of performance measures, affinity attributes such as the demonstrated behaviours/values and visions of an LGA contribute significantly to image perceptions and highly correlate with overall satisfaction ratings.

Our advanced analysis reveals that community engagement areas, i.e. 'Council provision of information to residents' and 'opportunities to participate in Council decision making' are the most impactful meta drivers of overall satisfaction.

The specific opportunity areas/contributors that can be leveraged to consolidate and optimise overall satisfaction are; 'encouraging recycling', 'litter control and rubbish dumping', and 'support for community environmental initiatives', as well as infrastructure/development areas such as 'condition of local roads' and 'managing development and growth'.

Recommendations

Based on the results of this research Council should;

- Clarify residents' aspirations and expectations concerning the condition of local roads and footpaths
- Engage with the community about the current and proposed deliverables that are intended to manage and address infrastructure and development across the LGA, specifically those targeted to mitigate active populational pressures
- Identify and address the affinity measures beyond performance that are impacting on the community's perception of Wingecarribee's brand image
- Focus on engaging and consulting with residents to ensure their concerns and enquiries are acknowledged – this could also contextualise resident expectations regarding Council's role within the community
- Determine resident expectations with regard to the environmental initiatives in the local area

Section A

Detailed Findings

Importance of, and Satisfaction with, Council Services and Facilities

The Unipolar Scale of 1 to 5, where 1 was the lowest importance or satisfaction and 5 the highest importance or satisfaction, was used in all rating questions.

Interpreting the Mean Scores

Within the report, the mean ratings for each of the criteria have been assigned a determined level of 'importance' or 'satisfaction'. This determination is based on the following groupings:

Mean rating:

1.99 or lower	'Very low'
2.00 – 2.49	'Low'
2.50 – 2.99	'Moderately low'
3.00 – 3.59	'Moderate'
3.60 – 3.89	'Moderately high'
3.90 – 4.19	'High'
4.20 – 4.49	'Very high'
4.50 +	'Extremely high'

Participants were asked to indicate which best described their opinion of the importance of the following services/facilities to them. Respondents who rated services/facilities a 4 or 5 in importance were then asked to rate their satisfaction with that service/facility.

We Explored Resident Response to 39 Service Areas

People

Festivals and events
Community safety/crime prevention
Support for aged persons
Support for people with a disability
Support for youth
Support for the Aboriginal community
Provision and operation of libraries

Places

Revitalisation/beautification of town and village centres as well as the surrounding areas
Protecting heritage values and buildings
Provision and maintenance of local parks and gardens
Dog control
Cleanliness and functionality of public toilets
Availability of car parking in the town and village centres
Cycle paths and walking tracks
Local traffic management i.e. roundabouts, line marking, signage, traffic lights
Availability of, and access to, public transport i.e. bus shelters, footpaths, bus routes
Condition of local roads
Provision and quality of footpaths
Provision and maintenance of swimming pools
Provision and maintenance of playgrounds
Provision and maintenance of sporting facilities
Provision and maintenance of community halls/facilities

Environment

Green waste collection
The Resource Recovery Centre (RCC/local tip)
Domestic garbage collection
Providing adequate drainage
Support for community environmental initiatives
Restoration of natural bushland
Healthy, natural urban streams and creeks but not rivers
Encouraging recycling
Encouraging waste reduction initiatives
Managing development and growth
Enforcement of development and building regulations
Town water quality (taste, smell, and colour)
Litter control and rubbish dumping

Leadership and Economy

Support for local business and employment
Support for tourism
Opportunities to participate in Council decision making
Council provision of information to residents

Importance of, and Satisfaction with, Council Services and Facilities

Key Service Areas' Contribution to Overall Satisfaction

By combining the outcomes of the regression data, we can identify the derived importance of the different Nett Priority Areas.

Contribution to Overall Satisfaction with Council's Performance

Importance of, and Satisfaction with, Council Services and Facilities People

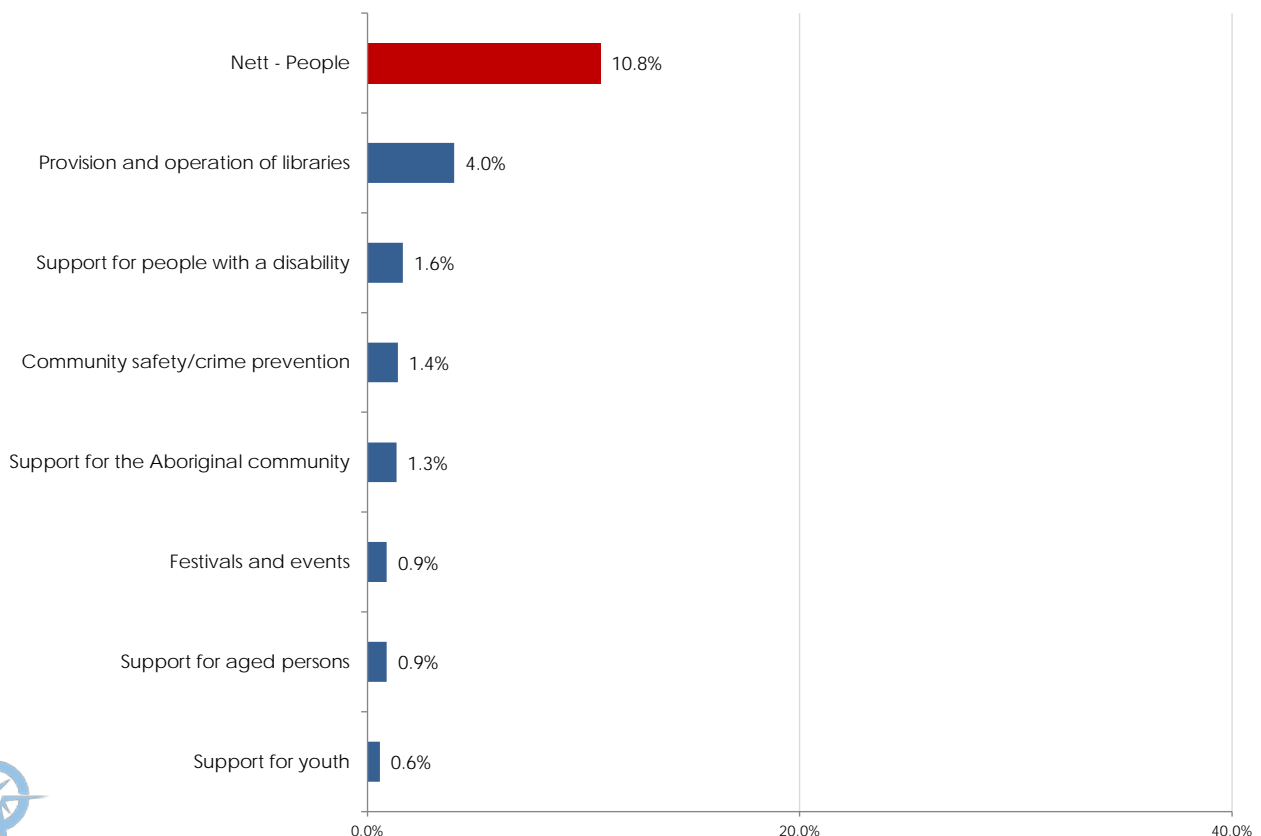

Services and facilities explored included:

- Festivals and events
- Community safety/crime prevention
- Support for aged persons
- Support for people with a disability
- Support for youth
- Support for the Aboriginal community
- Provision and operation of libraries

Contribution to Overall Satisfaction with Council (Regression Data)

Council's performance in the areas below accounts for almost 11% of overall satisfaction, based on the regression analysis.

People – Contributes to Almost 11% of Overall Satisfaction with Council

Importance of, and Satisfaction with, Council Services and Facilities People

Note: The hierarchal sorting of each graph is relative to the criteria's importance mean ratings.

Scale: 1 = not at all important/not at all satisfied, 5 = very important/very satisfied

▲▼ = A significantly higher/lower level of importance/satisfaction (by year)

Festivals and events	-0.03	0.06	+0.09

▲▼ = positive/negative shift greater than 0.2 from 2012

Overview of Rating Scores

Importance – overall

Very high	Community safety/crime prevention Support for people with a disability Support for aged persons Support for youth
High	Provision and operation of libraries
Moderately high	Support for the Aboriginal community Festivals and events

Importance – by age

Residents aged 65 and over found 'support for aged persons' significantly more important, whilst those aged 35-49 rated this measure significantly lower.

Importance – by gender

Females ascribed significantly higher levels of importance to 'community safety/crime prevention', 'support for youth', and 'provision and operation of libraries'.

Importance – by region

Town residents were significantly more likely to find 'provision and operation of libraries' important.

Importance – compared to 2012

'Support for the Aboriginal community' has significantly increased in importance since 2012.

Importance of, and Satisfaction with, Council Services and Facilities People

Overview of Rating Scores

Satisfaction – overall

High	Provision and operation of libraries
Moderately high	Festivals and events Community safety/crime prevention Support for aged persons
Moderate	Support for people with a disability Support for the Aboriginal community Support for youth

Satisfaction – by age

There were no significant differences in importance between age groups.

Satisfaction – by gender

There were no significant differences in importance between genders.

Satisfaction – by region

There were no significant differences in importance between regions.

Satisfaction – compared to 2012

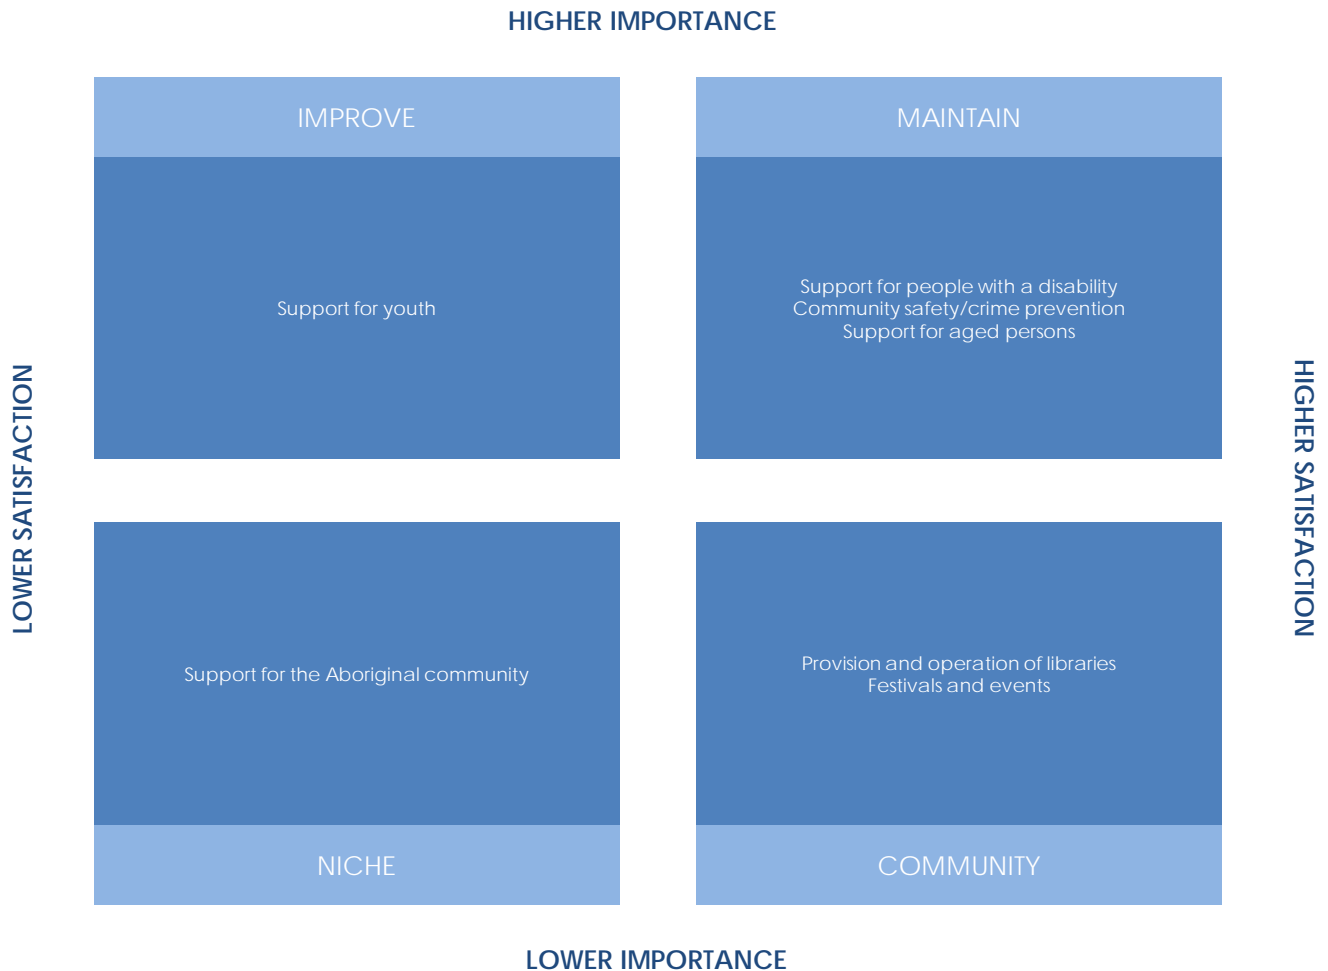

5 of the 7 services areas have significantly increased compared to 2012, including:

- Community safety/crime prevention
- Support for people with a disability
- Support for aged persons
- Support for youth
- Festivals and events

Importance of, and Satisfaction with, Council Services and Facilities People

Quadrant Analysis

Recommendations

Based on the stated outcomes analysis, Wingecarribee Shire Council needs to improve resident satisfaction with:

- Support for youth

Wingecarribee Shire Council also needs to maintain resident satisfaction with:

- Support for people with a disability
- Community safety/crime prevention
- Support for aged persons

Importance of, and Satisfaction with, Council Services and Facilities Places

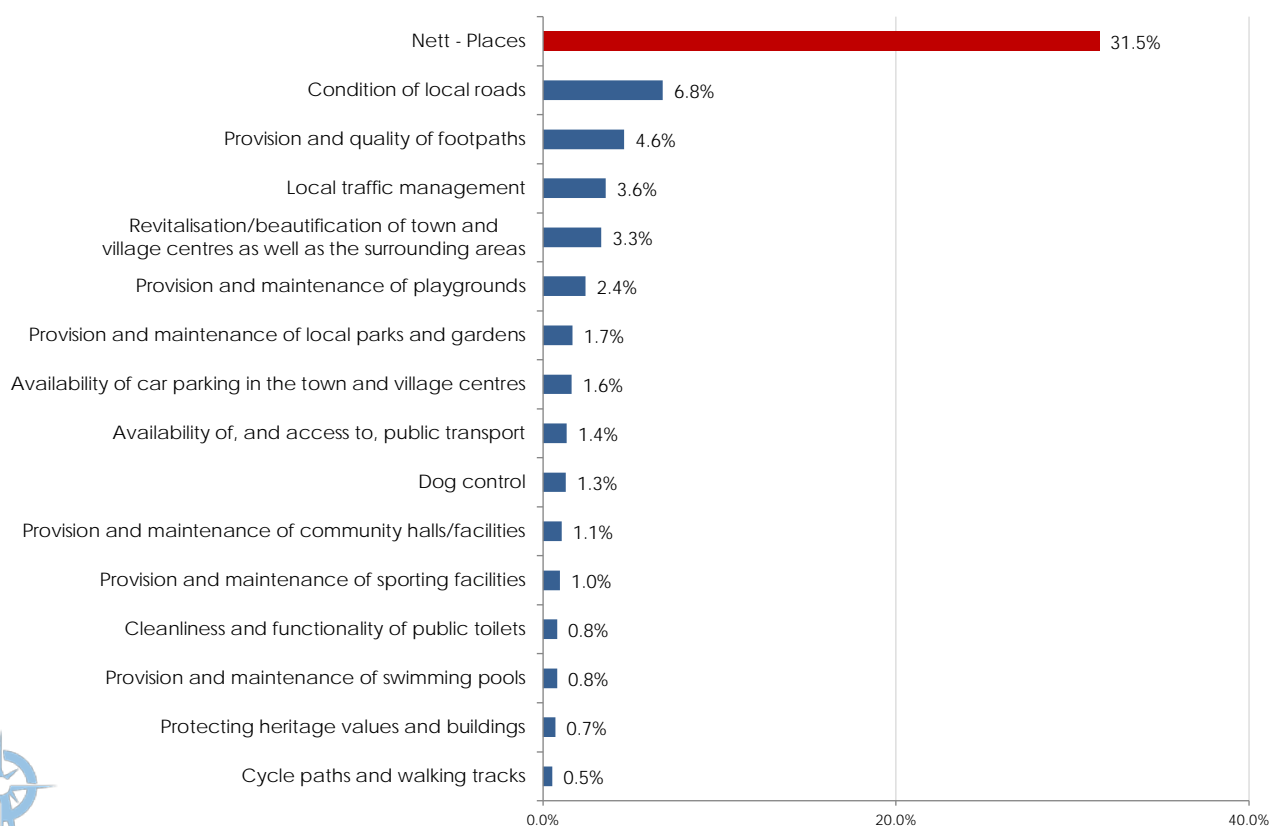

Services and facilities explored included:

- Revitalisation/beatification of town and village centres as well as the surrounding areas
- Protecting heritage values and buildings
- Provision and maintenance of local parks and gardens
- Dog control
- Cleanliness and functionality of public toilets
- Availability of car parking in the town and village centres
- Cycle paths and walking tracks
- Local traffic management i.e. roundabouts, line marking, signage, traffic lights
- Availability of, and access to, public transport i.e. bus shelters, footpaths, bus routes
- Condition of local roads
- Provision and quality of footpaths
- Provision and maintenance of swimming pools
- Provision and maintenance of playgrounds
- Provision and maintenance of sporting facilities
- Provision and maintenance of community halls/facilities

Contribution to Overall Satisfaction with Council (Regression Data)

Council's performance in the areas below accounts for almost 32% of overall satisfaction, based on the regression analysis.

Places – Contributes To Almost 32% of Overall Satisfaction with Council

	Availability of, and access to, public transport
	Provision and maintenance of swimming pools
	Protection heritage values and buildings
	Provision and maintenance of community halls/facilities
Moderately high	Revitalisation/beautification of town and village centres as well as the surrounding areas
	Dog control

Importance – by age

Residents aged 65 and over attributed a significantly higher level of importance to the 'provision and maintenance of community halls/facilities', whilst those aged 18-34 rated this service area significantly lower.

Importance – by gender

Females rated 'cleanliness and functionality of public toilets', 'cycle paths and walking tracks', and 'revitalisation/beautification of town and village centres as well as the surrounding areas' significantly higher in importance.

Importance – by region

Town residents assigned a significantly higher level of importance to 'provision and quality of footpaths'.

Importance – compared to 2012

'Provision and maintenance of playgrounds', 'availability of, and access to, public transport', 'provision and maintenance of swimming pools', and 'protecting heritage values and buildings' have significantly increased in importance compared to 2012.

Importance of, and Satisfaction with, Council Services and Facilities Places

Overview of Rating Scores

Satisfaction – overall

Moderately high	Provision and maintenance of swimming pools Provision and maintenance of community halls/facilities Provision and maintenance of sporting facilities Dog control
Moderate	Provision and maintenance of playgrounds Provision and maintenance of local parks and gardens Cleanliness and functionality of public toilets Cycle paths and walking tracks Protecting heritage values and buildings Revitalisation/beautification of town and village centres as well as the surrounding areas Local traffic management
Moderately low	Provision and quality of footpaths Availability of car parking in the town and village centres Availability of, and access to, public transport
Low	Condition of local roads

Satisfaction – by age

Residents aged 18-34 were significantly more satisfied with the 'provision and quality of footpaths', whilst those aged 65 and over were significantly less satisfied.

Satisfaction – by gender

There were no significant differences in satisfaction between genders.

Satisfaction – by region

Town residents were significantly more satisfied with the 'availability of, and access to, public transport'.

Satisfaction – compared to 2012

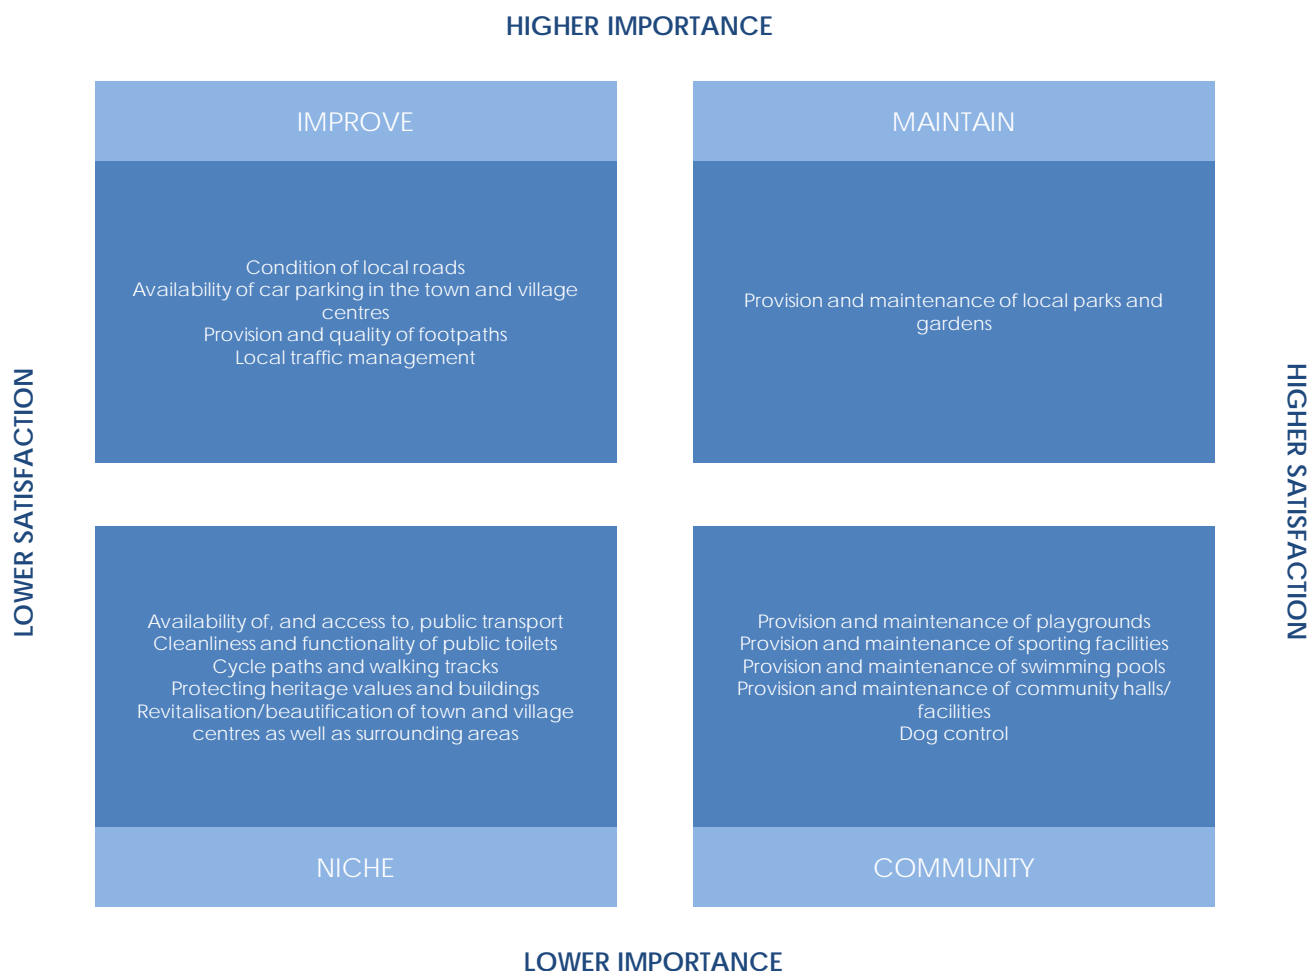

7 out of 15 service areas have significantly increased in satisfaction compared to 2012, including:

- Condition of local roads
- Availability of car parking in the town and village centres
- Provision and quality of footpaths
- Provision and maintenance of sporting facilities
- Cleanliness and functionality of public toilets
- Provision and maintenance of swimming pools
- Provision and maintenance of community halls/facilities

Importance of, and Satisfaction with, Council Services and Facilities Places

Quadrant Analysis

Recommendations

Based on the stated outcomes analysis, Wingecarribee Shire Council needs to improve resident satisfaction with:

- Condition of local roads
- Availability of car parking in the town and village centres
- Provision and quality of footpaths
- Local traffic management

Wingecarribee Shire Council also needs to maintain resident satisfaction with:

- Provision and maintenance of local parks and gardens

Importance of, and Satisfaction with, Council Services and Facilities Environment

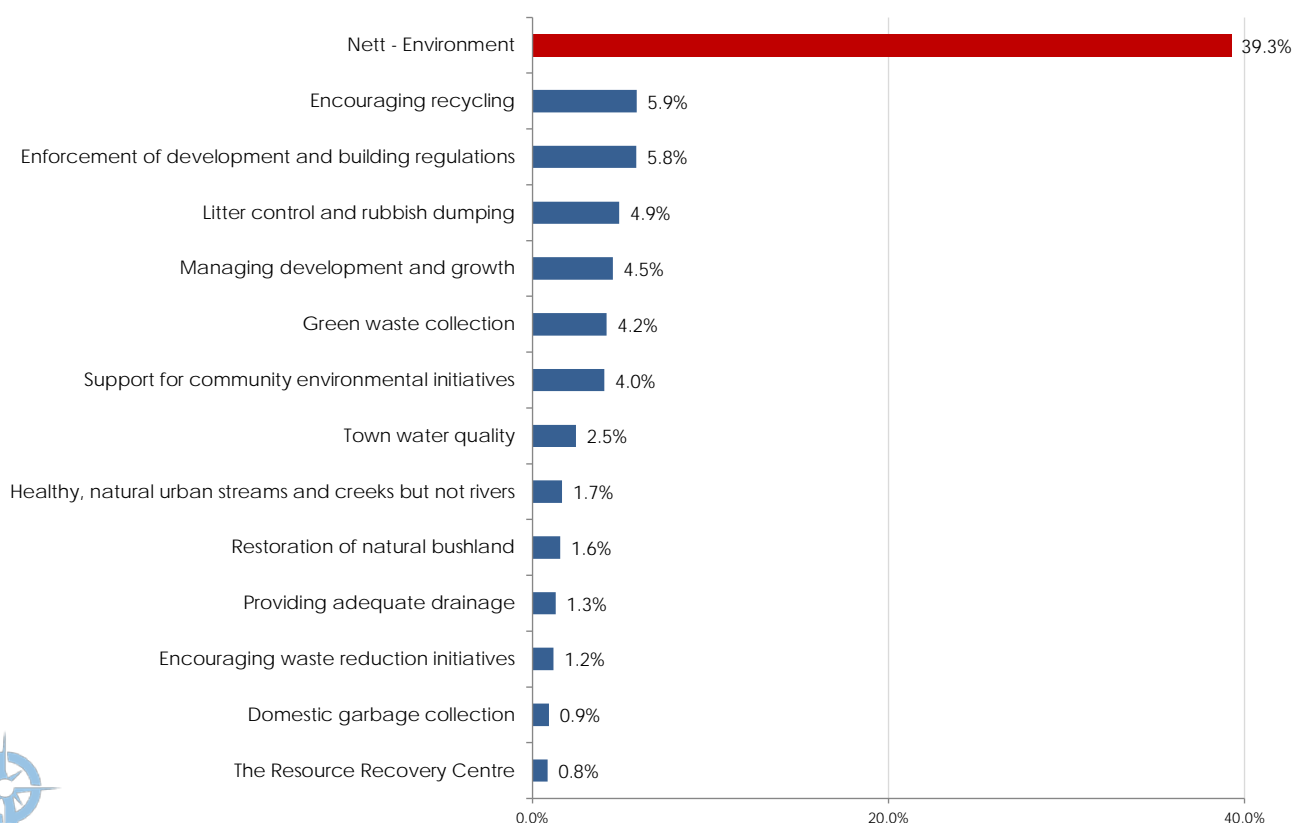

Services and facilities explored included:

- Green waste collection
- The Resource Recovery centre (RCC/local tip)
- Domestic garbage collection
- Providing adequate drainage
- Support for community environmental initiatives
- Restoration of natural bushland
- Healthy, natural urban streams and creeks but not rivers
- Encouraging recycling
- Encouraging waste reduction initiatives
- Managing development and growth
- Enforcement of development and building regulations
- Town water quality (taste, smell, and colour)
- Litter control and rubbish dumping

Contribution to Overall Satisfaction with Council (Regression Data)

Council's performance in the areas below accounts for over 39% of overall satisfaction, based on the regression analysis.

Improving Satisfaction with Council's Performance

Overview

Using regression analysis, we identified the variables that have the greatest influence on driving positive overall satisfaction with Council.

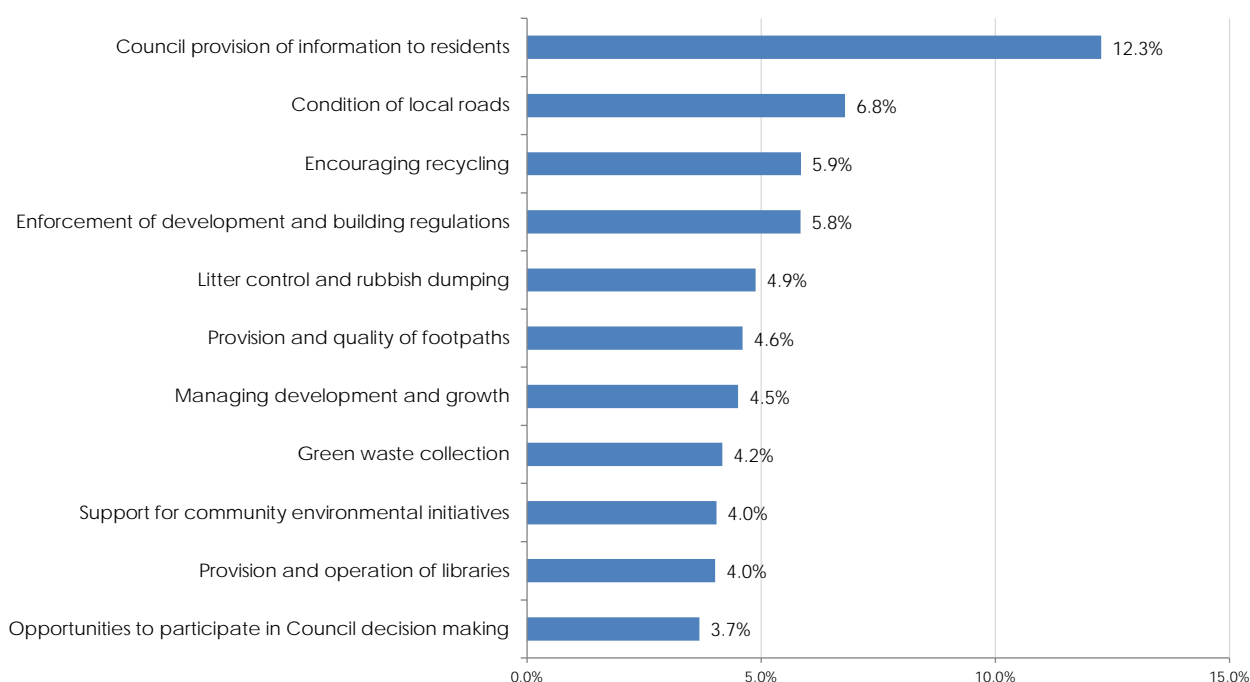

*Revitalisation/beautification of town and village centres as well as the surrounding areas

Importance of, and Satisfaction with, Council Services and Facilities

These 11 services/facilities are the key community priorities and by addressing these, Wingecarribee Shire Council will improve community satisfaction. The score assigned to each area indicates the percentage of influence each attribute contributes to overall satisfaction with Council. For example, in the chart below 'Council provision of information to residents' contributes 12.3% towards overall satisfaction.

These Top 11 Indicators Contribute to Over 60% of Overall Satisfaction with Council

The contributors to satisfaction are not to be misinterpreted as an indication of current dissatisfaction

Based on the regression analysis, Council performance in the areas listed above accounts for over 60% of overall satisfaction.

Outcome

If Wingecarribee Shire Council can address these core drivers, they will be able to improve residents' overall satisfaction with their performance.

Section B

Contact with Council

Contact with Council

Summary

48% of residents indicated they had contacted Council in the last 12 months – this result remains in line with 2012.

Residents aged 35-49 (58%) were the age group most likely to have contacted Council in the last 12 months.

Q1. Have you contacted Council in the last 12 months?

	2015	2012	2010
Yes	48%	49%	41%
No	52%	51%	59%
Base	407	400	400

Contact with Council

Summary

Of the residents who contacted Council staff, 59% did it via 'phone'.

Residents aged 18-34 were significantly more likely to have contacted Council via 'Council information kiosk or workshop', whereas those aged 65 and over were significantly less likely to have contacted Council via 'phone'.

Q2a. Thinking of the last time you made contact with Council staff, how did you make contact?

Other	Count
Council meeting	2
Meeting with the Mayor	1

	2015	2012	2010
Phone	59%	53%	63%
Email	7%	9%	6%
Letter	4%	6%	6%
Online (via Council's website)	1%	3%	0%
Base	195	195	165

Contact with Council

Summary

Of those who made contact with Council, the nature of their enquiry was most frequently in relation to 'roads, footpaths, and parks, etc.' (18%) and 'waste and clean up services' (18%).

Contacting Council about a 'building and development approval' (16%) has significantly declined in comparison to 2012.

Q2b. What was the nature of your enquiry?

*Note: For the list of 'others', please see Appendix B

▲ ▼ = significantly higher/lower (by year)

Contact with Council

Summary

74% of residents were at least 'somewhat satisfied' with the way their contact was handled, which remains in line with the results from 2012.

Residents aged 65 and over were the most likely age group to be satisfied with the way their contact was handled, whilst those aged 18-34 were the least likely.

Q2c. How satisfied were you with the way your contact was handled?

	Overall 2015	Overall 2012	Overall 2010	18-34	35-49	50-64	65+	Male	Female	Town	Village
Mean ratings	3.57	3.61	4.07	2.90	3.83	3.33	3.85	3.48	3.65	3.58	3.55

Scale: 1 = not at all satisfied, 5 = very satisfied

Contact with Council

Summary

Residents' most mentioned reason for the way their contact could be improved was 'respond to customer requests and queries/more action from Council'.

Q2c. How satisfied were you with the way your contact was handled?

Q2d. (If not very satisfied or not at all satisfied), how could the way this contact was handled have been improved?

Reasons for rating 'not very satisfied'/'not at all satisfied'	% N = 50
Respond to customer requests and queries/More action from Council	38%
Better staff communication - <i>polite, helpful, empathetic, personal approach, understanding, proactive</i>	24%
Quicker response time	18%
Provide more transparent information	10%
Direct contact with a staff member, not phone recorded messages/online system	4%
Re-directory service when contacting Council via phone	4%
Better training of staff	2%
Direct contact with decision-maker(s)	2%
Dissatisfied with the outcome of contact	2%
Easier access to Council staff	2%
More efficient Council services	2%
More flexibility to speak to building inspectors	2%
More focus on customers who contact via phone, not just those who contact via email	2%
More knowledgeable staff	2%
More staff at counters to avoid long queues	2%
More staff for the community centre	2%
Not enough focus placed on issues raised	2%
Providing alternative options if DA is rejected	2%

Means of Sourcing Information about Council

Summary

Residents predominantly obtain their information about Council and its services, facilities, and activities through 'word of mouth' (73%).

'Website/Internet' and 'social media' have significantly increased as methods of receiving information about Council compared to 2012, whilst 'Council newsletter', and 'rates notice' have significantly decreased.

Residents aged 65 and over were significantly more likely to obtain information through a 'Council newsletter' and 'personal visits to the Civic Centre', and unsurprisingly, were significantly less likely to obtain information through 'website/Internet'.

Residents in the younger age group (18-34) were significantly more likely to acquire information about Council through 'social media', and significantly less likely to source their information about Council through a 'Council newsletter' or 'rates notice', and residents aged 50 and over were significantly less likely to acquire information through 'social media'.

Residents aged 35-49 were significantly more likely to get information about Council through the 'website/Internet'.

Q3. Where do you get your information about Council and its services, facilities, and activities?

*Note: For the list of 'others', please see Appendix B

▲ ▼ = significantly higher/lower (by year)

Satisfaction with Communication from Council

Summary

85% of residents were at least 'somewhat satisfied' with the level of communication Council currently has with the community.

Q4a. How satisfied are you with the level of communication Council currently has with the community?

	Overall 2015	Overall 2012	Overall 2010	18-34	35-49	50-64	65+	Male	Female	Town	Village
Mean ratings	3.43	3.51	3.49	3.52	3.29	3.39	3.55	3.37	3.48	3.49	3.34

Scale: 1 = not at all satisfied, 5 = very satisfied

Satisfaction with Communication from Council

Summary

'Provision of more information', 'more/utilise alternative methods of communication', and 'more consultation/involvement within the community' were residents' top suggestions for Council to improve communication.

Q4a. How satisfied are you with the level of communication Council currently has with the community?

Q4b. (If not very satisfied or not at all), how do you think Council could improve its communication?

Reasons for rating 'not very satisfied'/'not at all satisfied'	% N = 62
More/Utilise alternative methods of communication - radio, letterbox drops, newspapers, television, social media, street signage	23%
Provision of more information - minutes from meetings, activities and events, general details, current projects, local issues	21%
More consultation/involvement within the community	18%
Be more transparent with residents	15%
Focus more on the concerns and opinions of the community	10%
Visitation of Councillors to the local areas/Face-to-face interaction	8%
Respond to customer requests and queries/More action from Council	6%
Council to be less fragmented/More communication between Council members	3%
More available/accessible to residents	3%
Quicker response times	3%
Better run Council meetings	2%

Ensuring the delivery of newspapers to residents	2%
More knowledgeable staff	2%
More mentions of Yerrinbool in newsletters	2%
Provide residents with more updates/feedback	2%
Quality of newsletters	2%
Raising trust within the local community towards Council's bodies	2%
Remove some of the Councillors	2%
Stop electing local residents with self-interests into positions with more and more power	2%
Stronger leadership	2%

Section C

The Local Area

Council's Image within the Community

Summary

43% of residents rated Council's image within the community as 'good' to 'excellent'. Image scores appear to have consolidated from where they were in 2012, however, compared to Micromex's LGA Brand Scores, there are opportunities to strengthen Council's brand perceptions among residents.

Residents aged 18-34 rated Council's image significantly higher.

Q6c. Overall, how would you rate Council's image within the community?

	Overall 2015	Overall 2012	18-34	35-49	50-64	65+	Male	Female	Town	Village
Mean ratings	3.24	3.16	3.82▲	3.04	3.00	3.29	3.19	3.29	3.23	3.26

NSW LGA BRAND SCORES – COUNCIL'S IMAGE	Metro	Regional	All of NSW	Wingecarribee Shire Council 2015
Mean ratings	3.83▲	3.38	3.55▲	3.24▼

Scale: 1 = very poor, 6 = excellent

▲▼ = significantly higher/lower (by group)

Note: Due to a rating scale change, results from 2010 could not be compared

Best Aspects about Living in the Wingecarribee Area

Summary

Residents felt the best thing about living in the Wingecarribee area was the 'atmosphere', specifically in relation to the quiet and peaceful lifestyle and the country/rural characteristics, as well as the natural environment and the nice/friendly community. Further to this, residents value being able to experience living in a country/rural atmosphere but also being in close proximity to Sydney.

Q6d. Thinking generally about living in the Wingecarribee area, what do you feel is the best thing about living here?

Word Frequency Tagging

Verbatim responses for this question were collated and entered into analytical software. This analysis 'counts' the number of times a particular word or phrase appears and, based on the frequency of that word or phrase, a font size is generated. The larger the font, the more frequently the word or sentiment is mentioned.

Base: n = 407

Top Priority for Council in the Next Four Years

Summary

Residents believe Council should focus on the maintenance of roads, development and planning of infrastructure and housing in the area, and take into account the growing population in Wingecarribee over the next four years. Following on from this, the maintenance and management of local infrastructure and services and local employment opportunities will also need to be improved and expanded in order to cater for the growing population.

Q6e. Thinking about the next four years, what do you think is the top priority for Council to focus on?

Word Frequency Tagging

Verbatim responses for this question were collated and entered into analytical software. This analysis 'counts' the number of times a particular word or phrase appears and, based on the frequency of that word or phrase, a font size is generated. The larger the font, the more frequently the word or sentiment is mentioned.

Base: n = 407

Section D

2031 Measures

Agreement with Specific Statements

Summary

There were high levels of agreement with each of the statements, with 'at least 90% of residents responding positively.

Agreement with statements remain similar compared to previous reporting years.

Residents aged 18-34 agree with all the prompted statements.

Q7a., Q7b., and Q7c. Do you agree or disagree with the following statements?

	2015	2012	2010
I feel there are benefits to living in a community with people of diverse ages, backgrounds, and cultures	96%	97%	95%
Base	402	396	393
I feel there are adequate support networks available to me if I need them	92%	88%	84%
Base	373	383	381
I feel a part of my local community	90%	88%	86%
Base	394	397	399

Participation in Local Activities

Summary

96% of residents believe they have the 'opportunity to participate in recreational and sporting activities', which is similar to 2012. All residents aged 35-49 agreed they were provided with this opportunity.

90% found they had the 'opportunity to participate in arts and related activities', which is on par with the previous years.

Half of the residents stated they had participated in volunteer activities in the last 12 months. Residents aged 65 and over were significantly more likely to have partaken in volunteer activities, whilst those in the younger age group (18-34) were significantly less likely to have contributed to volunteer activities.

Q8a. Do you believe that living in the Shire you have the opportunity to participate in arts and related activities?

Q8b. Do you believe that living in the Shire you have the opportunity to participate in recreational and sporting activities?

Q8c. In the last 12 months, have you participated in any volunteer activities?

	2015 N=407	2012 N=400	2010 N=400
Opportunity to participate in recreational and sporting activities	96%	97%	93%
Opportunity to participate in arts and related activities	90%	90%	90%
Participation in volunteer activities	50%	53%	56%

Section E

Response Timeliness

Response Timeliness

Summary

Residents rated the timeliness of Council's response to 'water supply' most satisfactory of the four, with 94% at least 'somewhat satisfied'.

Residents aged 65 and over were significantly more satisfied with the timeliness of Council's response to 'water supply'.

Town residents were significantly more satisfied with the timeliness of Council's response to 'sewerage', 'drainage', and 'roads'.

Q9. How satisfied are you with the timeliness of Council's response to:

	Overall 2015	Overall 2012	Overall 2010	18-34	35-49	50-64	65+	Male	Female	Town	Village

Appendix B – Questionnaire

**Wingecaribee Shire Council
Community Survey
June 2015**

Good morning/afternoon/evening, my name is _____ from Micromex Research and we are conducting a survey on behalf of Wingecaribee Shire Council on a range of local issues. The survey will take about 15 minutes, would you be able to assist us please?

QA1. Before we start I would like to check whether you or an immediate family member works for, or represents, Wingecaribee Shire Council? (i.e. staff or councillor)

- ☐ Yes (If yes, terminate survey)
☐ No

QA2. Which town or village do you live in/near?

Towns - 60%

- ☐ Mittagong
☐ Bowral
☐ Moss Vale

Villages - 40%

- ☐ Avoca
☐ Aylmerton
☐ Balmoral
☐ Berrima
☐ Braemar
☐ Bundanoon
☐ Burradoo
☐ Burrawang
☐ Canyonleigh
☐ Colo Vale
☐ Exeter
☐ Fitzroy Falls
☐ Glenquarry
☐ High Range
☐ Hill Top
☐ Joadja
☐ Kangaloon
☐ Medway
☐ New Berrima
☐ Penrose
☐ Renwick
☐ Robertson
☐ Sutton Forest
☐ Welby
☐ Wildes Meadow
☐ Willow Vale
☐ Wingello
☐ Yerrinbool
☐ Other (specify).....

Section A – Contact with Council

I'd like you now to please think specifically about your experiences with Wingecarribee Shire Council.

Q1. Have you contacted Council in the last 12 months?

- ☐ Yes
- ☐ No (If no, go to Q3)

Q2a. Thinking of the last time you made contact with Council staff, how did you make contact?

- ☐ Phone
- ☐ Online (via Council's website)
- ☐ Email
- ☐ Letter
- ☐ Council's customer contact centre
- ☐ Meeting with a Council officer
- ☐ Onsite with a Council officer
- ☐ Council information kiosk or workshop
- ☐ Spoke to at local park, garden, sports field
- ☐ Spoke to at library
- ☐ Other (please specify).....

Q2b. What was the nature of your enquiry? Prompt

- ☐ Waste and clean up services
- ☐ Community services (youth, children, aged care)
- ☐ Roads, footpaths and parks, etc.
- ☐ Rates – land or water
- ☐ Building and development approval
- ☐ Town planning and zoning
- ☐ Library
- ☐ Other (please specify).....

Q2c. How satisfied were you with the way your contact was handled? Prompt

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Somewhat satisfied
- ☐ Not very satisfied
- ☐ Not at all satisfied

Q2d. (If not very satisfied or not at all satisfied), how could the way this contact was handled have been improved?

.....

Q3. Where do you get your information about Council and its services, facilities and activities? Prompt

- ☐ Southern Highlands News Newspaper
- ☐ Highlands Post Newspaper (free paper)
- ☐ Council newsletter (Wingecarribee Today – distributed quarterly via post to all residents)
- ☐ Emailed newsletter (for example 'Have Your Say', Arts Info and Wingecarribee Web)
- ☐ Community engagement
- ☐ Rates notice
- ☐ Website/Internet
- ☐ Social media
- ☐ Personal visits to the Civic Centre
- ☐ Libraries
- ☐ Word of mouth
- ☐ Other brochures/publications
- ☐ Other (please specify).....

Q4a. How satisfied are you with the level of communication Council currently has with the community? Prompt

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Somewhat satisfied
- ☐ Not very satisfied
- ☐ Not at all satisfied

Q4b. (If not very satisfied or not at all satisfied), how do you think Council could improve its communication?

.....

Section B – Importance of, and satisfaction with, Council services

Still thinking specifically about Wingecarribee Shire Council...

Q5. In this section I will read out different Council services or facilities. For each of these could you please indicate that which best describes your opinion of the importance of the service/facility to you, and in the second part, your level of satisfaction with the performance of that service/facility. The scale is from 1 to 5, where 1 is low importance and 5 is high importance and where 1 is low satisfaction and 5 is high satisfaction.

Note: All attributes rated on importance, attributes rated a 4 or 5 in importance they are then rated on satisfaction.

	Importance					Satisfaction					N/A
	Low 1	2	3	4	High 5	Low 1	2	3	4	High 5	
Revitalisation/beautification of town and village centres as well as the surrounding areas	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Protecting heritage values and buildings	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Section C – Overall satisfaction with Council and the local area

Q6a. Overall, for the last 12 months, how satisfied are you with the performance of Council, not just on one or two issues, but across all responsibility areas? *Prompt*

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Somewhat satisfied
- ☐ Not very satisfied
- ☐ Not at all satisfied

Q6b. Why do you say that?

.....

Q6c. Overall, how would you rate Council's image within the community? *Prompt*

- ☐ Excellent
- ☐ Very good
- ☐ Good
- ☐ Fair
- ☐ Poor
- ☐ Very poor

Q6d. Thinking generally about living in the Wingecaribbee area, what do you feel is the best thing about living here?

.....

Q6e. Thinking about the next four years, what do you think is the top priority for Council to focus on?

.....

Section D1 – 2031 Measures

Do you agree or disagree with the following statements?

Q7a. "I feel a part of my local community"

- ☐ Agree
- ☐ Disagree
- ☐ Don't know

Q7b. "I feel there are adequate support networks available to me if I need them"

- ☐ Agree
- ☐ Disagree
- ☐ Don't know

Q7c. "I feel there are benefits to living in a community with people of diverse ages, backgrounds and cultures"

- ☐ Agree
- ☐ Disagree
- ☐ Don't know

Please answer yes or no for the following questions.

Q8a. Do you believe that living in the Shire you have the opportunity to participate in arts and related activities?

- ☐ Yes
- ☐ No

Q8b. Do you believe that living in the Shire you have the opportunity to participate in recreational and sporting activities?

- ☐ Yes
- ☐ No

Q8c. In the last 12 months have you participated in any volunteer activities?

- ☐ Yes
- ☐ No

Section D2 – Response Timeliness

Q9. On a scale of 1 to 5 where 1 is not at all satisfied and 5 is very satisfied, how satisfied are you with the timeliness of Council's response to: *Prompt*

	Not at all satisfied			Very satisfied		D/K
	1	2	3	4	5	
Roads	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Drainage	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Water supply	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Sewerage	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Section E – Demographic and Profiling questions

Q10. Please stop me when I read out your age group.

- ☐ 18 – 34
- ☐ 35 – 49
- ☐ 50 – 64
- ☐ 65 years and over

Q11. Were you born in Australia or overseas?

- ☐ Australia
- ☐ Overseas

Q12. Which of the following best describes the house where you are currently living?

- ☐ I/We own/are currently buying this property
- ☐ I/We currently rent this property

Q13. How long have you lived in the local area? *Prompt*

- ☐ Up to 2 years
- ☐ 2 – 5 years
- ☐ 6 – 10 years
- ☐ 11 – 20 years
- ☐ More than 20 years

In the future after we analyse the results from this research we may be conducting further consultations with residents.

Q14a. Would you be interested in being recontacted in the future?

- ☐ Yes
- ☐ No (If no go to end)

Q14b. (If yes), what are your contact details?

Name

Telephone

Email
