

BELLINGEN SHIRE COUNCIL REVENUE POLICY, SCHEDULE OF FEES AND CHARGES 2022/2023

**BELLINGEN
SHIRE COUNCIL**

Annual Statement of Revenue Policy

Purpose

It is a requirement of Section 405 of the NSW Local Government Act 1993 for Council to have a statement of Council's Revenue Policy each year.

The objectives of the Revenue Policy are:

- To meet statutory requirements;
- To establish the total revenue required to fund Councils' activities within budgetary constraints; and
- To identify the revenue sources available to Council.

Summary

Bellingen Shire Council utilises a variety of sources to generate sufficient income to deliver a wide range of services for the local community. These sources range from statutory and user-pay charges to entrepreneurial ventures.

Revenue Categories include:

- Rates
- Annual Charges for services
- Fees for service
- Commonwealth and State Government grants
- Earnings from investments and entrepreneurial activities
- Borrowings
- Other revenues, including income from the sale of assets.

The following pages are a series of statements that explain each major area of Council's revenue base.

In summary these statements are as follows:

- Statement of rating structure
- Statement of charges
- Statement of fees
- Statement of pricing policy for goods and services
- Statement of charges for work by Council on private land
- Statement of borrowings
- National competition policy

Statement of Rating Structure

Rates are Councils' major source of funding, representing over a third of Councils' operating revenue. In NSW council rates are levied based on land valuations supplied by the Valuer General's Department. These valuations are reviewed every three years as part of a process termed 'General Revaluation'. It is important to note that regardless of changes in the land valuations for existing properties the actual total amount of rates income a council may levy is limited by rate pegging, where the Independent Pricing and Regulatory Tribunal (IPART) determines annually the allowable increase in rates.

Rating Structure

In determining its rating structure, Council considers the need for equity amongst all ratepayers within the Local Government Area. In setting its 2022/2023 rating structure Council considered the three options available under the NSW Local Government Act 1993. These are as follows:

Ad Valorem

- Land Value of each property x Rate in Dollar (ad valorem) = Rates

Ad Valorem plus Minimum Rate

- Land value of each property x Rate in Dollar (ad valorem) = Rates
- Unless rates are below a predetermined minimum rate, in which case the minimum rate applies.
- Council sets a minimum rate charge for all categories.

Ad Valorem plus Base Charge

- Up to 50% of income collected by base charge
- Remaining income collected on ad valorem basis

For the 2022/2023 year Council will maintain its existing rating structure, being ad valorem plus base charge. This is considered an equitable way for residents to pay a reasonable amount towards the core services provided by Council, regardless of the land value on their property.

Rate Pegging & Population Growth

The NSW Government introduced rate pegging in 1977. Rate pegging limits the amount that Council can increase its total general rate income from one year to the next by a specific figure determined by the Independent Pricing and Regulatory Tribunal (IPART). The Chair of IPART has specified a permissible increase in revenue from ordinary rates as prescribed by Section 506, NSW Local Government Act 1993 of 0.7% for 2022/2023. General income comprises income from ordinary rates and does not include income from waste management service charges or water and sewerage service charges.

The rate pegging percentage of 0.7% is determined by IPART and is the maximum general increase in income Council can collect for 2022/2023.

STATEMENT OF REVENUE POLICY 2022/2023

In 2021, the IPART has undertaken a review of the local government rate peg methodology to include population growth. On 10 September 2021 IPART provided the Final Report on this review to the (then) Minister for Local Government, the Hon. Shelley Hancock MP. The Minister endorsed the new rate peg methodology and has asked IPART to give effect to it in setting the rate peg from the 2022-23 financial year. For 2022/23 year onwards a different rate peg will be applied to each council to permit that a council could increase its notional general income by a population factor.

For Bellingen Shire Council the IPART have added in a population factor of 0.6%. This brings the rate peg for Bellingen to 1.3% for 2022/23. This is due to a population increase of 1.1% from 12,993 to 13,141.

IPART determines the rate peg by measuring changes in the Local Government Cost Index (LGCI), which includes changes in the average costs faced by councils.

A fact sheet on the rate peg is available on IPART's website: www.ipart.nsw.gov.au

If council wishes to increase income above the approved rate peg, Council must apply to IPART for a Special Variation to General Income.

Categorisation

Section 514 of the NSW Local Government Act 1993 requires all land to be categorised as one of four categories according to its dominant use. The four categories of the ordinary rate are as follows:

- Farmland
- Residential
- Business
- Mining

Section 529 of the NSW Local Government Act 1993 states that properties may be further categorised into one of Council's rating sub-categories, to allow a more fair and equitable distinction for levying of rates.

Currently Council has the following Rating Categories and Sub-categories:

- Residential
- Residential – Bellingen
- Residential – Dorrigo
- Residential – Mylestom
- Residential – Urunga
- Residential - Rural
- Business
- Business – Bellingen
- Business – Dorrigo
- Business – Urunga
- Business - Industrial
- Farmland

STATEMENT OF REVENUE POLICY 2022/2023

Instalments

Rates and Charges can be paid by either quarterly instalments or a single instalment. The 2022/2023 due dates for these instalments are as follows:

1st Instalment or Payment in Full – 31 August 2022

2nd Instalment – 30 November 2022

3rd Instalment – 28 February 2023

4th Instalment – 31 May 2023

Interest on Overdue Rates and Charges (Sec 566(3) NSW Local Government Act 1993)

Council proposes to charge the maximum rate per annum accruing on a daily basis on outstanding rates and charges for 2022/2023, as set by the Minister for Local Government.

Pensioner Rebates (Sec 575 NSW Local Government Act 1993)

Rebates are available to eligible pensioners who are solely or jointly liable for the payment of rates and charges. The pensioner must occupy the dwelling as their sole or principal place of living.

The rebates are as follows:

- 50% of the combined ordinary rates and domestic waste management charge up to a maximum rebate of \$250.00.
- 50% of water charges up to a maximum rebate of \$87.50.
- 50% of sewerage charges up to a maximum rebate of \$87.50.

The pensioner rebate must be applied against the rate assessment or water billing account in the name of the ratepayer and not a Body Corporate or a Company, except where it is allowed by special agreement. The special agreement would cover circumstances such as where an applicant is the sole shareholder of the company that owns the property and the property is used as the applicants' principal place of residence.

Rate Rebates will be granted to pensioners who meet the eligibility criteria and will be limited to the current rating year and rating year prior to the application.

Valuation of Land

The applicable land valuation for rating purposes is supplied by the Valuer Generals' Department. The Valuation of Land Act 1916 requires Council to levy rates using the most recent land values supplied to Council. Revised Land Valuations are supplied to Council every three years as part of a process termed 'General Revaluation'.

STATEMENT OF REVENUE POLICY 2022/2023

A general revaluation of the Bellingen Shire Council Local Government Area is undertaken every three years with a revaluation being undertaken in 2019/2020 with the new values used to levy rates from 1 July 2020. The new land values are used to distribute the rates across the local government area for the 2022/2023 year.

Council has undertaken a large body of work to ensure the rates burden is equitably distributed across the Shire, and the large increases are managed to ensure the impact to individual ratepayers are minimised.

Additional Special Variation – 2.5% inclusive of Rate Peg and Population Growth

For 2022/2023 Council made application to the Independent Pricing and Regulatory Tribunal (IPART) for an Additional Special Variation (ASV) of 2.5% inclusive of the already approved 0.7% rate peg and 0.6% population growth increase. This was subsequently approved by IPART on the 21 June 2022.

The rate structure below reflects the approved ASV for 2022/2023.

2022/2023 Rate Structure – 2.5% ASV

Category	No of assess	Rateable Land value	Base \$	Ad Valorem	% Base Yield	Average Rates	Estimated Income
Business	129	32,726,591	576.00	0.00311526	42.16	1,366.32	176,256

TOTAL	6,141	1,990,765,977					9,228,183

Statement of Charges

Annual Availability Charges – Water Supply Services (Sec 501 NSW Local Government Act 1993)

The State Government has moved away from cost reflective water pricing principles to those influenced by demand management as per the Best Practice Management of Water Supply and Sewerage Guidelines 2007.

For the 2022/2023 financial year Council will make and levy annual charges for its water supply service on each parcel of land where the service is available as defined in Section S552 of the NSW Local Government Act 1993.

STATEMENT OF REVENUE POLICY 2022/2023

Council may levy a charge relating to water supply on:

- (a) land that is supplied with water from a water pipe of the council, and
- (b) land that is situated within 225 metres of a water pipe of the council and capable of being supplied.

Service – Per Meter	Number of Meters	2022/2023 Annual Charge (\$)	Yield (\$)
20mm Water Availability	4396	150.00	659,400
25mm Water Availability	54	233.00	12,582
32mm Water Availability	19	383.00	7,277
40mm Water Availability	14	595.00	8,330
50mm Water Availability	24	930.00	22,320
65mm Water Availability	1	1,573.00	1,573
80mm Water Availability	3	2,383.00	7,149
90mm Water Availability	0	3,017.00	0
100mm Water Availability	1	3,724.00	3,724
Fire Service	21	150.00	3,150
TOTAL	4,533		725,505

For 2022/2023 financial year Council proposes to make and levy annual charges for its water supply service on each parcel of residential and non-residential land where the service is **available** and **not connected**.

The charge for each assessment is as follows:

Service – Per Meter	Number of Meters	2022/2023 Annual Charge (\$)	Yield (\$)
Annual Access Charge – Not Connected	77	132.00	10,164
TOTAL	77		10,164

Fire Service

Council may exempt properties from the payment of this charge where a Council approved permanent on-site water supply systems have been installed, generally as a requirement of development consent and where the property is not connected to Council's reticulated water supply system.

Strata Properties

S495A of the NSW Local Government Act 1993 states that each lot in a registered strata plan or each dwelling/portion in a company (S547 (1) Local Government Act 1993) is taken to be a separate parcel of rateable land. For the purposes of levying charges under S501 of the NSW Local Government Act 1993, annual water charges on these properties will be charged per strata lot or dwelling/portion.

Council estimates that annual charges will yield \$736k (25% of total income) in 2022/2023.

STATEMENT OF REVENUE POLICY 2022/2023

Usage Charge – Water Supply (Section 502 NSW Local Government Act 1993)

User Charge	2022/2023 - \$ per kilolitre
Residential	2.50
Residential – Inclining Block Tariff (IBT)	3.75
Non Residential	2.50

Consumption is based on quarterly meter readings. Estimates are used where the meter is deemed by Council to be faulty or inaccessible. Usage charges are levied and payable quarterly.

Council estimates that water usage charges will yield \$2.15M (75% of total income) in 2022/2023.

Inclining Block Tariff (IBT)

An Inclining Block Tariff will also be applicable for residential consumers only. As such, any residential consumer that uses more than 1kl per day in any billing period will be charged at one and a half times the normal rate for all consumption in excess of the average daily rate.

An example is provided below:

Billing Period	No of Days	Usage	User Charges	Amount billed \$
May – Aug	90	100kl	90kl @ \$2.50 + 10kl @ \$3.75	\$262.50
Aug – Nov	110	175kl	110kl @ \$2.50 + 65kl @ \$3.75	\$518.75
Nov – Feb	80	90kl	80kl @ \$2.50 + 10kl @ \$3.75	\$237.50
Feb – May	85	85kl	85kl @ \$2.50 + 0kl @ \$3.75	\$212.50
Full Year	365	450kl		\$1,231.25

Where Council is unable to determine actual consumption (ie inaccessibility, unrestrained dog, broken meter, etc) usage charges will be based on the average quarterly usage for the prior 12 month period.

Council estimates that the water annual charges and water usage charges will yield \$2.89M in 2022/2023.

Policy for Waiver of Excess Water Usage Charges as a Result of an Internal Plumbing Failure

Council has adopted a Policy for the partial waiver of excess water usage charges as a result of an internal plumbing failure.

The Policy and details can be located on Councils' website: www.bellingen.nsw.gov.au

STATEMENT OF REVENUE POLICY 2022/2023

Annual Availability Charges – Sewerage Services (Sec 501 NSW Local Government Act 1993)

For the 2022/2023 financial year Council proposes to make and levy annual charges for its sewerage network service on each parcel of **residential** land where the service is available, as defined in Section S552 of the NSW Local Government Act 1993, and based on the size of the water meter connected to the property.

The charge is payable regardless of whether the service provided is actually used.

Council may levy a charge relating to sewer supply on:

- (a) land that is situated within 75 metres of a sewer of the council and is capable of being connected.

The charge for each meter is detailed below:

RESIDENTIAL:

Nature of Service – Per Meter	No Meters	2022/2023 Annual Charge (\$)	Yield (\$)
20mm Sewer Availability – Residential	2,977	1,104	3,286,608
25mm Sewer Availability – Residential	6	1,722	10,332
32mm Sewer Availability – Residential	2	2,826	5,652
40mm Sewer Availability – Residential	5	4,415	22,075
50mm Sewer Availability – Residential	0	6,897	0
65mm Sewer Availability – Residential	0	11,655	0
80mm Sewer Availability – Residential	0	17,659	0
90mm Sewer Availability – Residential	0	22,350	0.00
100mm Sewer Availability – Residential	0	27,593	0.00
TOTAL	2,990		3,324,667

For 2022/2023 financial year Council proposes to make and levy annual charges for its sewerage network service on each parcel of **non-residential** land where the service is available and based on the size of the water meter connected to the property. The charge is payable regardless of whether the service provided is actually used.

NON-RESIDENTIAL:

Nature of Service – Per Meter	No Meters	2022/2023 Annual Charge (\$)	Yield (\$)
20mm Sewer Availability – Non-Residential	277	1,104	305,808
25mm Sewer Availability – Non-Residential	24	1,722	41,328
32mm Sewer Availability – Non-Residential	10	2,826	28,260
40mm Sewer Availability – Non-Residential	6	4,415	26,490
50mm Sewer Availability – Non-Residential	16	6,897	110,352
65mm Sewer Availability – Non-Residential	0	11,655	0
80mm Sewer Availability – Non-Residential	1	17,659	17,659
90mm Sewer Availability – Non-Residential	0	22,350	0
100mm Sewer Availability – Non-Residential	0	27,593	0
TOTAL	334		529,897

STATEMENT OF REVENUE POLICY 2022/2023

For the 2022/2023 year Council proposes to make and levy annual charges for its sewerage network service on each parcel of residential and non-residential land where the service is available and *not* connected.

The charge for each assessment is:

Nature of Service – Per Assessment	No Meters	2022/2023 Annual Charge (\$)	Yield (\$)
Sewer Availability – Not Connected	46	1,000.00	46,000
TOTAL	46		46,000

Strata Properties

Section 495A of the NSW Local Government Act 1993 states that each lot in a registered strata plan or each dwelling/portion in a company (S547(1) NSW Local Government Act 1993) is taken to be a separate parcel of rateable land. For the purposes of levying charges under Section 501 NSW Local Government Act 1993, annual sewerage charges on these properties will be charged per strata lot or dwelling/portion.

Properties that are serviced by a Council approved and functioning on-site effluent disposal systems (this includes the removal of any existing connection) may be exempt from the payment of this charge.

Council estimates that the annual charges will yield \$3.9M in 2022/2023.

Pro rata levying of Water and Sewer Availability Charges

Council will apply water and sewer availability charges on a pro rata basis following connection of a water and/or sewer service provided by council, in a fair and consistent manner and in accordance with the provisions of the NSW Local Government Act 1993 and NSW Local Government (General) Regulations 2005.

In accordance with Section 553 of the NSW Local Government Act 1993 and 60 days after the Gazettal Notice of an extension to Council's sewer main, and 21 days after the Gazettal Notice of an extension to Council's water main, charges will be levied on a pro rata basis for those properties that are able to be connected.

STATEMENT OF REVENUE POLICY 2022/2023

Usage Charges – Sewerage Services (Sec 502 NSW Local Government Act 1993)

Sewer Usage Charges are levied in accordance with the mandated NSW State Government Pricing Policy 2001.

The Policy has a user pays focus. Non-residential properties have been inspected and using Government Guidelines, the percentage of water each is estimated to dispose of into the sewerage system has been determined. This is referred to as the sewer discharge factor (SDF).

User Charge	2022/2023 - \$ per kilolitre
Non-Residential Connected	1.45

The charge is calculated as follows:

Sewer Usage Charge = U x (D x Q) whereby:

U = unit charge to convey and treat domestic sewage, being \$1.45/kl in 2022/2023.

D = discharge factor (estimated % of water consumption discharged to sewer)

Q = metered water consumption in kilolitres.

Council estimates that sewer usage charges will yield \$151K in 2022/2023.

Annual Charges – Liquid Trade Waste (Sec 501 NSW Local Government Act 1993)

For the 2022/2023 financial year Council proposes to make and levy annual charges for its Liquid Trade Waste service in accordance with its Liquid Trade Waste Policy.

Non-residential properties are charged a Trade Waste Annual charge based on the number of trade waste generators present on the property.

The charge for each generator is:

Nature of Service – Per Generator	No Meters	2022/2023	Yield (\$)
Annual Access Charge - Non-residential Connected	96	260.00	24,960
TOTAL	96		24,960

Council estimates that the annual charges will yield \$25K in 2022/2023.

STATEMENT OF REVENUE POLICY 2022/2023

Usage Charges – Liquid Trade Waste (Sec 502 NSW Local Government Act 1993)

Non-residential properties that discharge trade waste into Councils' sewerage system incur usage charges based on category and volume of waste discharged into the sewer system.

Non-residential properties have been inspected and using Government Guidelines, each trade waste generator has been categorised into a charging category. The estimated volume of trade waste disposed into the sewerage system has been determined and a Trade Waste Discharge Factor (TWDF) applied to the relevant water services. The TWDF, in simple terms, is a percentage of the water usage (measured by the water meter) deemed to be discharged into the sewerage system as trade waste.

The charge is as follows:

1. Category 1 – Compliant

There is no consumption charge for Category 1 – Compliant.

2. Category 1 – Non Compliant

A consumption charge of one dollar and eighty five cents (\$1.85) per kilolitre will be charged on all commercial properties. This charge will be based on water consumption of the previous quarter and affected by the strength and volume of waste and a Trade Waste Discharge Factor.

3. Category 2 – Compliant

A consumption charge of one dollar and eighty five cents (\$1.85) per kilolitre will be charged on all commercial properties. This charge will be based on water consumption of the previous quarter and affected by the strength and volume of waste and a Trade Waste Discharge Factor.

4. Category 2 – Non Compliant

A consumption charge of eighteen dollars and sixty five cents (\$18.65) per kilolitre will be charged on all commercial properties. This charge will be based on water consumption of the previous quarter and affected by the strength and volume of waste and a Trade Waste Discharge Factor.

The formula for calculating Liquid Trade Waste Usage (LTWU) is as follows:

Liquid Trade Waste Usage Charge = $U \times (TWDF \times Q)$ whereby:

U = unit charge to convey and treat liquid trade waste, as per the charge category above

TWDF = % trade waste discharged to sewer

Q = metered water consumption in kilolitres

Council estimates that the Liquid Trade Waste usage charge will yield \$49K in 2022/2023.

STATEMENT OF REVENUE POLICY 2022/2023

Annual Charge – Domestic Waste Management (Sec 496 NSW Local Government Act 1993)

The Domestic Waste Management Service Charge (DWM) must be determined each year pursuant to Section 496, NSW Local Government Act 1993. This charge is audited annually by Councils' external auditors to ensure that the charge is 'reasonable'- that is, the cost of collecting domestic waste over a period of time throughout the council area is equivalent to the cost of providing the service over a period of time.

Council does not apply any income from the ordinary rate towards the cost of providing the Domestic Waste Management services. All income applied by Council towards the cost of providing domestic waste management services is obtained from the making and levying of Domestic Waste Management charges.

For the 2022/2023 financial year Council proposed to make and levy annual charges for its Domestic Waste Management Service on each parcel of residential land where the service is available. The charge is payable regardless of whether the service provided is actually used. The charge applies to each separate occupancy, per land parcel/assessment; excluding secondary dwellings as defined in Bellingen Local Environmental Plan 2010.

Charge on rateable properties (for a three 240lt bin service)	Number of Services	2022/2023 Annual Charge (\$)	Yield (\$)
Residential – Occupied	4,089	802.00	3,279,378
Residential – Unoccupied *	141	211.00	29,751
Waste Facility Access Charge	1,795	211.00	378,745
TOTAL	6,025		3,687,874

*Unoccupied is where the land is vacant, not where the residence is vacant.

A residential Domestic Waste Management Service provides for a kerb side collection of three wheelie bins, one for recycling (collected fortnightly), one for general waste (collected fortnightly) and one for food and garden waste (collected weekly).

The Waste Facility Access Charge provides for those rural residents who do not receive a Domestic Waste Management Service that the main townships and villages receive. These rural residents can access the Raleigh Waste Management Centre, Bellingen Transfer Station and Dorrigo Waste Management Centre for domestic waste and recycling purposes only and is in lieu of the kerbside waste collection services that the township and village households receive. Rural residents will receive a Waste Facility Access Card that must be shown when entering Councils waste facilities.

All users of Councils waste facilities must show proof of ID when entering as non-shire residents are charged at a higher rate than residents. Those that are not willing to show ID will be denied entry to the site.

It is important to note, that either residential or rural residents (who pay either the Domestic Waste Management Service or the Waste Facility Access Charge fee), whom access the Raleigh Waste Management Centre, Bellingen Transfer Station and Dorrigo Waste Management Centre, to dispose of waste above the exempted levels as listed in Council's Schedule of Fees & Charges are subject to Council's gate charges at each facility and the NSW EPA Section 88 landfill levy, as applicable.

STATEMENT OF REVENUE POLICY 2022/2023

Additional combinations of services are available for those parcels of residential land that receive the standard Domestic Waste Management Service consisting of 3 X 240 litre bins. These additional optional services are detailed in Councils' Fees and Charges Schedule.

Council estimates that the annual charges will yield \$3.69M in 2022/2023.

Annual Charge – Commercial Waste Management (Sec 501 NSW Local Government Act 1993)

The Commercial Waste Management charge must be determined each year pursuant to Section 501, NSW Local Government Act 1993.

Commercial premises have the option to use either a mobile garbage bin (MGB) (the same as the Domestic Waste Management Service) or a commercial bulk bin service.

For the 2022/23 financial year Council proposes to make and levy annual charges for its Commercial Waste Management Service on each parcel of commercial and non-rateable land where the service is provided. The charge applies to each separate occupancy, per land parcel/assessment.

Charge on rateable properties (for a three 240lt bin service)	Number of Services	2022/2023 Annual Charge (\$)	Yield (\$)
Commercial – Occupied	317	802.00	254,234
Commercial – Unoccupied *	68	211.00	14,348
TOTAL	385		268,582

*Unoccupied is where the land is vacant, not where the premises is vacant.

A Commercial Waste Management Service provides for the kerbside collection of three wheelie bins, one for recycling (collected fortnightly), one for general waste (collected fortnightly) and one for organic waste (collected weekly).

Additional combinations of services are available for those parcels of land that receive the standard Commercial Waste Management Service consisting of 3 X 240 litre bins. These additional optional services are detailed in Councils' Schedule of Fees and Charges.

Council estimates that the annual charges will yield \$269k in 2022/2023.

Hardship Policy

Council has adopted a Hardship Policy for those ratepayers that are experiencing difficulty with payment of rates, charges and/or fees. The Policy and associated application form can be located on Council's web site: www.bellingen.nsw.gov.au

STATEMENT OF REVENUE POLICY 2022/2023

Statement of Borrowings

Council proposes to borrow \$3.0M during 2022/2023.

Fees and Charges

The fees and charges that Council proposes to charge for products and services it provides are set out in the Councils' Schedule of Fees and Charges 2022/2023.

Goods and Services Tax (GST) applies to a number of goods and/or services supplied by Council. Those goods and/or services that are subject to GST have been identified in the Schedule of Fees and Charges as GST inclusive. Some goods and/or services supplied by Council have been declared GST free or are exempt from GST. Those goods and/or services which are GST free or are exempt from GST are indicated as exempt in the Schedule of Fees and Charges.

The Schedule of Fees and Charges has been prepared using the best available information in relation to the GST impact on the fees and charges at the time of publication. A fee that is shown as being subject to GST and is subsequently proven not to be subject to GST will be amended by reducing the GST to nil. Conversely, if Council is advised that a fee which is shown as being not subject to GST becomes subject to GST, then the fee will be increased but only to the extent of the GST.

In addition to the fees shown in the Schedule, Council levies contributions on developments to meet the additional demands on Council's services arising from those developments. Those fees and details of indexation formulae are included in the relevant Contribution Plans adopted by Council, copies of which may be inspected at Council's Offices. Those Plans describe the works that will be carried out utilising the contributions received.

**Regulated Charges/Statutory Fees set by Federal or State Government can change without notice.*

Waiving or reducing fees

Under 610E of the NSW Local Government Act 1993, A council may waive payment of, or reduce, a fee (whether expressed as an actual or a maximum amount) in a particular case if the council is satisfied that the case falls within a category of hardship or any other category in respect of which the council has determined payment should be so waived or reduced. Any waiver, write-off or exemption of payment of any of these charges is at the discretion of the General Manager.

Statement of Charges for Work by Council on Private Land

Proposed Charges for Work on Private Land

Council proposes to charge actual cost plus a profit margin for carrying out work on private land. Labour costs are costed to cover employment overheads and plant hire is costed at standard private works rates. Materials and stores are charged at cost and Council may add a margin to the calculated cost to cover contingencies. Any profit margin is then added to the estimate.

Rounding

Some charges in this Policy have been rounded down to the nearest dollar.

Other Statutory Information

Asset Replacement/Refurbishment/Maintenance Programs/Disposals

Plant and light vehicle replacements will occur in accordance with the plant replacement schedule. Variations to the policy can occur depending on prevailing market conditions.

Council owns a number of parcels of land. Any of this land that is surplus to Council's needs may be disposed of or developed. Council has not adopted any specific policy with regard to the acquisition or sale of land however a review of council's property portfolio is currently underway.

Council has prepared a Four Year Rolling Works Program for shire roads and urban improvements. Council reviews these programs annually.

Council has an asset management policy, strategy, and plans for all of its assets. Assets are maintained on an as required basis and improved/replaced as funds permit.

National Competition Policy

Council has adopted the principle of 'competitive neutrality' to its business activities as part of the national competition policy which is being applied throughout Australia at all levels of government. The framework for its application is set out in the June 1996 Government Policy statement on the "Application of National Competition Policy to Local Government". The "Pricing & Costing for Council Businesses a Guide to Competitive Neutrality" issued by the Office of Local Government in July 1997 has also been adopted. The pricing & costing guidelines outline the process for identifying and allocating costs to activities and provide a standard of disclosure requirements. These disclosures are reflected in Council's pricing and include taxation equivalents; council subsidies; return on investments (rate of return); and dividends paid.

For the purpose of the National Competition Policy the following activities of Council are regarded as "business activities":

Category 1 Businesses (Operating turnover \$2m and above)

- **Bellingen Shire Council Water Supply**

Comprising the whole of the operations and assets of the water supply systems servicing the towns of Bellingen, Urunga, Repton, Mylestom and Dorrigo.

- **Bellingen Shire Council Sewerage Service**

Comprising the whole of the operations and assets of the sewerage reticulation and treatment system servicing the towns of Bellingen, Urunga and Dorrigo.

Government policy requires that subsidies provided to customers and the funding of those subsidies must be explicitly disclosed. Subsidies occur where council provides services on a less than cost recovery basis. This option is exercised on a range of services in order for council to meet its community service obligations. Accordingly, Subsidies disclosed (in relation to National Competition Policy) represents the difference between revenue generated from 'rate of return' pricing and revenue generated from prices set by the council in any given financial year.

The overall effect of subsidies is contained within the Income Statement of each reported Business Activity in Councils Long Term Financial Plan.

Goods and Services Tax

Introduction

The Goods and Services Tax (GST) passed through legislation on 30 June 1999 and received Royal Assent on the 8 July 1999. The introduction of the Goods and Services Tax meant that certain fees and charges levied by Bellingen Shire Council attract GST, however Local Government benefits from a number of exemptions outlined in the Federal Treasurer's (Division 81) Determination.

Transparency

Council has gone to great lengths to ensure it has been totally transparent in reporting the applicability of the GST to its fees and charges. This document has been set out in such a way so that you, as the user, will know exactly where the GST applies to fees and charges. Three columns in particular within this document relate to GST:

- **Charge (excl. GST):** This is the actual fee or charge without GST applied to it.
- **GST:** If GST is applicable, this column will show the value of the GST to be applied (for one unit) and is rounded to the nearest cent. If we are unable to determine the cost of a food or service at the time of printing (eg the cost may vary during the year), "calculate" will appear in the fee line and GST will be calculated once the fee is known. If the column is blank yet the fee amount field contains a fee, it indicates GST is not applicable.
- **Charge (incl. GST):** This column should only be used for indicative purposes only (refer to "GST calculations" below). The Column displays the Total Charge for one unit with GST included.

GST Calculations

In most cases Council has been able to calculate the GST charge and report it as a dollar figure. This amount is based on one unit. For example, the charge to reproduce a copy of a Rate of Water Notice is \$6.36, with GST of \$0.64, bringing the Charge inclusive of GST to \$7.00.

If Council was unable to calculate the unit charge at the time of printing, the word "calculate" will be shown in the fee line. In this case, GST will be calculated once the Fee Amount is known.

GST Amendments

While the fee amount in this document will not alter without a resolution of Council, followed by a subsequent period on public exhibition, the applicability of the GST to the fees and charges may, depending on the interpretations and rulings as the GST legislation evolves.

Pricing Methodology

In determining the appropriate fees to be charged for Council services and facilities in 2017/2018, the basic principle applied was that charges should be considered fair and equitable to the general community. Individual members of the community should not be precluded from essential services because of economic circumstances.

The range of services provided by Council to the community is diverse and requires different considerations when determining the associated fee or charge. The level of the fee or charge was determined having regard to the following categories (which have been included in this document next to the relevant fee or charge):

Code	Description
A	Economic Cost Total cost of providing services for private good.
B	Community Service Services considered to have a level of benefit to the community. Generally benefits are not solely confined to users. Partially funded by rates.
C	Regulated Charges Federal or State Government set charges.
D	User Pays Principal Services under this category are such that individual cost can be determined and met by the user of the service.
E	Market Forces Services that Council operates in a competitive market and needs to fix charges similar to other providers.
F	Cost Plus Services provided on a commercial basis with an amount of risk profit included.
G	Section 94 (Developer Contributions) Items are priced at the level determined by the adoption of Council's Section 94 Plan. The Section 94 Plan provides for quarterly increases in these fees based on Consumer Price Index (CPI) increases.

Bellingen Shire Youth Centre

- Hire of many of the BSYC rooms include additional facilities such as the common area, kitchen, internet, utensils and appliances at no additional cost. As a result, all hire is subject to conditions including a "reasonable use policy" which ensures the intended hire is congruent with the purpose and mission of the centre and its facilities.
- Hiring may be subject to deposit, damage, security and cleaning charges as specified within the Hire Agreement.
- Half day hiring is up to 4 hours, full day is considered to be 4+ hours.
- The BSYC is used as a venue for numerous programs, some organised by the centre, others by third parties. Some of these programs are commercially based; others are free or by donation. Whatever the program, it is intended to ensure programs and events are suitable and accessible for the Shire's youth. As a result, regardless of the hiring organisation and the hire rate, the intent is the cost to youth for the majority of programs is free or minimal.
- Periodically, the Reception, Office 1 and Office 2 rooms become available for longer term lease. The prices on these depend on the term and the nature of the contract and the availability of the rooms (number of days available). As a result, when available, pricing for longer term leasing is available upon request and subject to being ratified by the Youth HUB Management Committee and Bellingen Shire Council.
- The Bouldering Wall facility at the centre was built by, and is under the auspices of the Bellingen Mentor Group. Session and usage charges apply and may be viewed on the Bellingen Shire Youth Centre website.

Thora Hall

Repair of any damage or removal of remaining debris/refuse shall be deducted from bond deposit.

Refund of deposit shall be determined after inspection. To retain full deposit, the hall shall be left in good/clean/tidy condition. To safeguard deposit, the hirer should notify the Booking Officer of any unseen or suspected damage prior to or at the start of the hire period.

Any crockery breakages will be deducted from the bond deposit.

The provision of additional consumable materials in addition to what is supplied by the hall Committee may be required. This advice, along with general requirements will be communicated to the Hirer by the Booking Officer prior to Hiring.

For more information and bookings phone (02) 6655 8506

Peak rates apply to bookings made for Friday, Saturday and Public Holiday events. All other bookings are considered "off peak". For event bookings less than three (3) hours in duration, an hourly rate structure is available.
