## INTRODUCTION

---

The Department of Local Government has implemented a new Integrated Planning and Reporting Framework with the objective of improving delivery of services to the community by councils.

The framework requires councils to integrate all their plans together with the objective of delivering services for the community through streamlining council operations and ensuring optimal use of resources.

Under the guidelines, council is required to prepare the following documents:

- A **Community Strategic Plan** which identifies the long-term aspirations that the community want to see delivered in the Griffith City Council area. The Strategic Plan identifies the outcomes and long-term strategic responses needed to achieve the agreed directions. It demands strong leadership from council in working with others to grow our area into the future.
- A **4 Year Delivery Program** which links the 'planning' in the long term Strategic Plan with the 'implementing' in the annual **Operational Plan**. It is the strategic document that guides the organisation's work program over the term of council. The Delivery Program sets out clear priorities, ongoing activities and specific actions council will undertake, within its responsibilities and capacity, towards achieving the community's outcomes.
- An annual **Operational Plan** which is the 'implementing' part of council's key strategic documents, and outlines all of council's services. All services deliver a range of ongoing service activities, and may identify specific tasks to be undertaken in the year ahead. Both ongoing activities and specific tasks contribute to the implementation of council's Delivery Program.
- A **Resourcing Strategy** that outlines council's capacity to manage assets and deliver services over the next ten years. The Strategy includes three key elements - a Workforce Management Plan, an Asset Management Plan, and a Long Term Financial Plan. To prepare the Resourcing Strategy, council determines its capacity and how to effectively manage its finances, the sustainability of its workforce, and the overall cost and condition of its community assets.

The financial positions and policies of the former councils inform the financial position of the new council and it is important to understand how that contributes to the current and future financial sustainability of the new council.

This is extremely important for the new organisation given that the purpose of a Long Term Financial Plan is to provide a framework to assist future decision making that will secure the financial sustainability of the organisation and ensure adequate funds are generated into the future to achieve outcomes desired by the community.

The Long Term Financial Plan contains guiding philosophies to promote a consistent financial direction spanning multiple financial years and council terms.

The Long Term Financial Plan will be reviewed and updated annually as part of the development of the annual Operational Plan and multi-year Delivery Program.

This is the annual review as part of the development for the Operational Plan. For the full document please refer to the "*Long Term Financial Plan 2017/18 - 2026/27*" which was adopted on 13 June 2017 and available to view on the council website.
