Dr Peter Boxall

Chair

Independent Pricing and Regulatory Tribunal

1 Market Street

SYDNEY 2000

Dear Dr Boxall

FIT FOR THE FUTURE SUBMISSION; HOLROYD CITY COUNCIL

The Asbestos Diseases Foundation of Australia (ADFA) supports Holroyd City Council's
Fit for the Future submission to remain as a Stand Alone Council.

ADFA is a not for profit organization working to provide support to people living with
asbestos related diseases, family members, carers and friends and to provide information

To the community as to the dangers of asbestos.

Holroyd City Council is a leader in the fight to protect and inform its residents to the
dangers of asbestos creating local policies and procedures to improve the safety standards
for the removal and disposal of asbestos materials.

Holroyd City Council has been working closely with ADFA in campaigning for a Federal
policy for the safe handling and disposal of asbestos, and for the establishment of a
National Asbestos Authority.

ADFA firmly believes that Holroyd City Council is sustainable and can continue to

Deliver efficient, services to the local community and will provide the best possible
outcome for the residents of Holroyd as a Stand Alone Council.

Yours sincerely
