

Author name: B. Bonino

Date of submission: 29 July 2015

Submission: Leichhardt Council can meet all of the Fit for the Future benchmarks within five years. The proposed inner west mega council cannot meet them in five or ten years time.

Leichhardt Council is financially sustainable now and into the future. The Department of Local Government's Your Council report shows we are the third most sustainable council in the Sydney metro area.

Bigger isn't better – the biggest councils in Sydney all placed near the bottom of the list of Sydney metro councils for financial sustainability.

Protecting our local identity, our local representation and accountability.
