Your submission for this review:

The Terms of Reference refer to "up to" 8 representatives of local government, in order to avoid any scepticism, consideration should be given to stating a minimum of, say, 4. Also it should be explicitly stated that they will be representative of the whole state e.g. metro, rural and regional. Whilst arguably it could be said that the terms of reference do not need to be that explicit, it will help quell the cynical naysayers!
