Submission to IPART with regard to Clarence Valley Council's SRV

As the President of Happy Paws Haven, an animal welfare endorsed charity and rate payer I am very concerned about the Clarence Valley Council's proposed 37% rates rise. We do not get any financial assistance from the Council of any form. The People of the Clarence Valley including this charity can NOT afford this Council's proposed 37% Rates Rise

There is no real justification in regard to the enormity of this rise given the wastage in this Council spending. There should instead be an independent commission that looks into and fully audits the council's financial records over the last 10 years.

Yours Sincerely

Sally Rogers
