Submission: I support the City of Sydney Council's submission and case that this LGA is fit for the future, subject to the following.

Boundary change:

Should Woollahra Municipal Council be found to be unfit by IMPART, I recommend that it is appropriate to add the Paddington (northern) area to the City of Sydney Council's area.

The case for this boundary change are primarily to:

re-unit this Victorian Heritage area (the area defined and as listed in the National Heritage Register); and include Paddington's High Street, being the Oxford Street shopping centre, under the control of one Council.

This would be administratively and planning wise a more effectively and consistent way to ensure good outcomes for businesses and residents into the future.

The assumption is that the remaining part of the Woollahra area is amalgamated with Waverley/Randwick.
