Message: Hi,

Wingecaribee shire is about to put the rates up by 45% over 4 years. That is absurd! I have not spoken to anyone who thinks this is OK. Yet they say it has the overwhelming support of the community? That's crap! They have clearly asked loaded questions, vested groups, and all the tricks that get a view one wants. Stop the rot, Please!!

Typical government. What getting bigger? Need more hard working taxpayer dollars? And this fro a council that squandered MILLIONSS's playing investment games way beyond their capacity. We do not trust the Wingecaribee council and no-one we know does!

Antoinette Hesford. [REDACTED]
