Subject: Objection to 33% rate rise by Shoalhaven Council

I wish to make my known my objection to the proposed outrageous 33% increase in rates by the Shoalhaven Council. Shoalhaven Council have so far failed to present a detailed budget justifying such a huge increase, so I want to know what is proposed to be done with this extra money and why can't a more reasonable increase be implemented? Money has not been well spent by Council in the past and I am not convinced that any increase would be better spent.

I am currently unemployed and at my age unlikely to be able to make up for this rate increase in my budget. This means I will have to go without for no justifiable reason by Council.

Extremely worried. Please stop this excessive and unjustified rate rise.

Yours sincerely  
Julia Robertson
