Submission: Randwick Council posted out a brochure to residents requesting that we prioritise the projects that Randwick Council will spend money on. I am very concerned about the process undertaken by Randwick Council. I filled in the brochure as I think it is important to be engaged so that community engagement occurs and that money is spent wisely. I feel this brochure was misleading. I did not realise it was being used to justify rate increases. I do not support the rate increases being sought by Randwick and I feel concerned that my filling in the brochure is being used to say that I support these rate rises.
