Submission: In regards to the rate rises. Hawkesbury Council has done NOTHING for the residents in the last 10 years in Yarramundi besides providing a bin service. I would not be happy with a rate rise on top of rates that are already heavily inflated when they are providing no services, there are no footpaths, no parks, no sewage and no town water. The council have not mowed their property which backs onto mine in the last 10 years causing US to have to maintain the area because of fire hazard. A big NO from me until they can start providing services to all areas of the Hawkesbury and not just those which will line their pockets.
