Submission: We get very little done now for our rates .I back on to a reserve (Berger road reserve) council refuse to mow around the trees on the snailham crescent side of the reserve.I contact council and all I get is that is a contractors job. It has been more then 10 years since council or one of there contractors mowed around the trees.There are some roads around the area that are still dirt (Fairey road) south Windsor it has been a dirt road for more then 36 years that I know of.Again refuse to tar the road every time I bring it up to counci al they say is the have no money for that.This only 2 small reason why council can not put up our rates we are not getting value for money now.My council rate are my largest house hold bill now there is now reaso why the should rise again
