Submission: Hawkesbury Council increased our land value so which in return put our rates up not that long ago. Now they want to increase it by 30%. That is over \$600 a year more. The cost of living is already high enough. We can't afford a rate rise. Especially after Hawkesbury council just spent a fortune on re-tarring Macquarie St in Windsor which was perfectly fine, not one thing wrong with the road. Wasting tax payers money and now they want more money from us to waste. Not happy at all. Nor is all my surrounding neighbours.
