Submission: Skyrocketing Land values in the Hawkesbury have already doubled or tripled many residents rates and given this pathetically run council a massive increase in funding. Applying for an additional 30% increase is both unaffordable for many of our longer term residents as well as unwarranted. Funding [REDACTED] programs like changing unisex toilet signs to gender neutral signs to please [REDACTED] minority's and spending thousands on [REDACTED] gender awareness training for council employees is why this bunch have no money. Don't reward them for being incompetent.
