Randwick City Council Rate Rise Rejection

Your online system failed to accept. Reason for email.

The Ridiculous growth in Land valuations from the valuer general in recent years has pushed up people rates enough as it is. The cost of power, insurances etc in recent times have caused enough hardship. Randwick council wastes much of its income on over inflated wages, poor decisions with works and poor management of projects and contracts which waste ratepayers money. Any extra rates would not be used for anything that would significantly benefit the community. All the increase would do is cause hardship to the community.

Please keep my name confidential. Letter can be published.

Regards
