Submission: I believe there should not be an increase to rates why should the people have to pay for the council wasting money on such things as Halloween which does not increase revenue for local businesses and for wasting money on plaza up grade that looks pathetic while we have roads falling apart in and around town roads they just put gravel on and leave for months no new industry come to town so no jobs for young and old the council has so much in house fighting it is a joke of a council to the point that as soon as my children finish school I will leave the area the council rely to much on the mining industry but eventually that will cease. The council should really be amalgamated as it is been run by clowns.
