Review	(LG) Special Variations & Minimum Rates 2021-2022
Document Reference	
Council	Armidale Regional Council, Application Notification Letter

Please leave your comments in the comment box below.

Good morning. I wish to object against the higher option SVR the Armidale Regional Council wish to implement. My main reason is that the current Councillors [REDACTED] and our election is in September. We should not have to bolster this Council's monetary position as they have proved they cannot monitor or control the [REDACTED] spending putting us into massive debt. I believe we should wait until after the election, settle a new Council in before the ratepayers are asked to pay an approximate 10% increase as it comes on top of a near 90% increase in water rates taking the area to one of the highest paying in the country, especially when we have a huge water supply in the Malpas Dam. As an independent overseeing body I am looking to you to slow down the madness of the Council charging the community for the their mismanagement instead of looking at ways (of which there are several) to replenish their coffers. They are crippling us, especially the pensioners. Thank you
