Submission: I would be opposed to the City of Sydney Council having its boundaries revised to include Botany Bay, Randwick, Waverley and Woollahra. Over the last 10 years the City of Sydney has implemented many major improvements benefiting the residents and businesses that exist within its boundaries. While a program expanding its boundaries might be seen as an opportunity to influence the future of its surrounding neighbours I see there being a greater risk that the creative and innovative spirit that exists within the City of Sydney will be lost within a council of the size suggested.

Also knowing the history of conflict that has existed between the NSW Government and the elected council representatives of the City of Sydney over many years it could also be seen as an attempt by the state government to remove the freely elected representatives of the council through means other than the ballot box.
