Submission:

I would like to protest the rise of our rates going up more than the CPI. Council did ask us via the newspaper if we were in accord, and the majority was NOT in favour, yet they are proceeding. I am a pensioner and my pension is not going up 7.5% or up at all any time soon. I walk my dog regularly [REDACTED] and there is a gap in the footpath there no longer than 30 metres, and it is a dangerous path due to the poor choice of trees there (quandong). I nearly lost my balance walking over the berry husks just the other day. This is a mean council and I believe their funds are not directed in the right way. And it is a greedy council. My goodness, with so many villas one would think there would be enough money to go around.
