Submission: I am opposed to the Bellingen Shire Council Special Variation Application. I own and live on a 6 acre property that is 5km from the Bellingen Shire Council Offices. My home receives no town water supply, and no garbage collection service. Once every 12-18 months the verge along the road front of my property is slashed/cut, and any damage/potholes along the road leading to my home are generally left for 12 months before being repaired/filled (and this fix is temporary, as they re-appear within a couple of months). I feel that even my current rates are disproportionate to the service I receive from council, let alone an increase. Thankyou for your consideration. [REDACTED]
