- I cannot see how this council can justify a 11% increase to the rates. I feel that existing residents are being unfairly penalised due to the massive influx of new housing estates. If the backlog of infrastructure is as bad as this council is quoting why is there no transparency as to where the funds are to be allocated and why has this been dragging on for years. What internal savings by Council are proposed and what accountability will there be that the funds will be allocated to the tasks and not squandered. Frankly the Council has done little in my area to improve facilities and I now find developers are they only ones getting any benefit in the Campbelltown.
