Submission: Hi,

I am a home owning resident of Junction Street in Gladesville and I am concerned about the proposed levels of development along Victoria Road. It is obvious to me that the roads in the area will not support the additional traffic generated by such a sudden influx of new residents and that the area will be less desirable to live in. I'm also concerned that the public schools in the area will be unable to cope with the additional load placed upon them and my child's access to education will be compromised.

I feel the developments to the area are excessive given the existing infrastructure and I cannot see any evidence that there will be a significant and planned effort to compensate.

It seems to me that these developments will have a negative impact on my family's quality of life.

Kind Regards

Resident
