Submission: I object to the creation of mega councils because :

- * You can't guarantee that my council rates won't be propping up another area which is poorly managed/inefficient/rife with corruption.

- * Leichhardt Council provides a very efficient services - example; garbage collection, mowing of nature strips, cleaning up the accumulation of fallen leaves, customer service when making enquiries by phone or email - that would not be possible with a mega council - longer waiting times will ensue for simple issue to be resolved/dealt with.

- * The State Govt hasn't managed the numerous restructuring of the many departments and agencies over the years which has cost the taxpayer dearly financially and in the provision of services - in this case if it isn't broken leave it alone.

- * Big is not necessarily better as the individual will only become another number in he system and "Big Brother is not always right" !
