Submission: As a resident in the Canada bay Council area, I am appalled the decision by my Council was not undertaken without the consultation with it's residents. I do not beleive Auburn Council is a good fit because it appears to be better placed with the Parramatta area. It would be more logical to include Strathfield Council and exclude Auburn rather than leave them out leaving a very unusual boundary. I do not believe politics come into this decision and regardless of political persuasions a decision on this matter should be based on the best interests of rate payers.
