Submission: I am writing to advise you that my husband & I are already paying a special rate for our infrastructure in our estate from IPART and is costing us each instalment [REDACTED] to make up [REDACTED] a year as we are on a age pension it is very hard to manage as it is, without paying any more, that the Shoalhaven Council wants us to pay. We will have to sell our home if the rates go up we cannot spend any more on rates & I think it very unfair for the council to expect ratepayers to keep paying for things when council should manage their money a whole lot better than they are doing. Thank you. [REDACTED]
