Submission: This rate rise will financially ruin families in the Port Stephens area. I have not heard from 1 person in favour of this rise, & yet this is 'what the people want'. No one wants this! Port Stephens council need to learn to live within their means, as the rest of us do. You have to wonder if this rise has anything to do with a certain court case they were requested not to pursue & I am aware of another case they are currently pursuing. All this tells me this council is incompetent & we are the ones paying for it.
