Your submission for this review:

With the recent increase in rates and proposed ongoing increase for rates now toppled with a proposed increase for water charges, we will not be able to pay our bills. Comparing costs for previous years and that we don't pay as much as other Councils is irrelevant. I am happy to pay for a service, not happy to pay for incompetence - isn't that the reason why Council did not receive an increase in charges last time because it failed to meet its obligations. Please think of the people on the Central Coast when deciding this rate rise. Thank you.
