Your submission for this review:

The very foundation on which the Council's submission is based is wrong. I refer to the financial statements for Jun 2020 as they were qualified by the NSW Auditor General supported by the NSW Attorney General. Until this qualification is removed Ipart should not consider any submission by the Council as it has a fundamental impact on the results. In order to justify their position the council had an expensive third party law firm (using rate payers money) give advice. This is beyond comprehension and should not be permitted. Council is under NSW Government administration and the Auditor General should have the last word. Please reject their submission.
