Your submission for this review:

I can not believe Central Coast Council are at it again, Thanks to you guys they got there 15% rise all be it for only 3 years but my rates went up \$240 not sure were I will find extra money all I can do is put it on my credit card and try to pay it off , I reckon you [REDACTED] dont even read these submissions and do what you want. Now these Council [REDACTED] want to raise our water rates on top of it all [REDACTED] , if they planted money trees 40 years ago on the nature strips we would be OK but I cant keep pulling money out of my [REDACTED] I dont have , Why do rate payers have to keep paying for this councils miss management, why are they being protected and just get stood down and walk away with no accountability . This council [REDACTED] is already talking about spending money on board walks and commercial shops around our water ways in Gosford no body wanted 10 years ago [REDACTED] what next parking meters .
