Submission:

To whom it may concern;

I object to any rate variation increase from HCC as they have clearly not conducted a comprehensive review of their spending OR implemented austerity measures to reduce their spending.

The swimming centres as one example lose millions of dollars per year, this is clearly un-sustainable and improper spending on under-utilised public resources.

Until they conduct a review of all their operations and expenditure and provide facts and figures to local residents, then their application for variation should be put on hold.

Regards
