Industry Review Local Government (LG) Special Variations & Minimum Rates 2020-2021 Document Reference Select Council If you have any general feedback regarding your council's proposed SV, please leave your comments in the comment box below. Istrongly object to Lismore City Council's proposed SV. For the following reasons; This council has proven over and over again not to be able to budget and manage their funds properly. Despite SV's in the past. Councel has to work with their budget and focus on the necessary works instead of trying to beautify the city. They can do that when they have a surpluse. The rate peg is there for a reason, I understand there can be an exception to the rule but Lismore Councel has already played that card. I find it very hard that Lismore Councel justifies this absurd rate hike whilst their citizens can see that the roads are hardly maintained for years but there is money for art, galleries and sporting fields. Politicians wonder why people have so little confidence in them, this is one example. They don't seem to have any feel for what's out in the community.	Question	Response
