Submission: It took 5 years to implement the previous City of Sydney amalgamation with mixed planning controls, different categories of rates and various IT systems. There will be such a big impact amalgamating 5 councils. Council rates and services will be impacted such as rates increase, services delays and impact negatively on Sydney's future prosperity and the NSW economy.

Please consider my concern against the mega amalgamation.

My family and myself are currently very happy of current City of Sydney's boundaries"

NO FOR MEGA-COUNCIL for City of Sydney !

Thank you,
