Submission: I am against the rise in our rates, we already pay nearly \$40 a week just for council to collect our rubbish. We have poor drainage in our street which causes our house to flood in big downpours, the road is in terrible shape and hasn't had any work done to it in the 8 years I have lived in our house. The upgrade to the cook street plaza which cost a lot of rate payers money looks absolutely terrible!! They do not deserve more money they need to look into how to be better with what they already get.
