**As a farmer. A 50% rate rise will be the last straw. Already we have had a huge rate increase from the freeze and with no garbage collection, water or sewage I'm not sure why we pay for these on our rates**

**Although this year has been a good year for most farmers the last few have been horrible and the next few could be the same. Don't make the people pay for the councils management of the merge. They should be able to work within their budget just as we have to. You don't see people asking for a rise when it's their own fault.**
