Submission: I do not want the City of Sydney to merge with any other council. I have lived in Redfern for 33 years, and the time Clover Moore has been Mayor is the only time I have seen improvements in public infrastructure and services in Redfern or the CBD. I don't know where previous councils spent their money, but they clearly did not spend it as wisely.

I trust Clover Moore to run an efficient and effective council, based on her track record. If the City of Sydney recommends that it does not merge with neighbouring councils, then I trust that their decision is correct, and I add my support.

Thanks for the opportunity to register my views.
