Upper Hunter Shire Council.

~~A~~ No to the Rate Increase !!!! Reason being that I believe a Councillor has stated that the money is in the councils future budget without having another rate increase. The project may take longer but with less burden on residents as with another rate increase. The NSW Government should pay for the upgrade to the Scone main street as part of the bypass project. The cost of such an upgrade if funded by the state will be well spent to help local business cope with the unforeseen changes to our town without having the expense of rate and or rent increases, other towns in the shire will also not be burdened by the increase of their rates that will be permanent and unfair. More information on the bypass by anyone council or state as to when the project will be progressing would be grateful Council please ask the NSW Government.
