**Subject:** Fit for the Future Proposals: City of Sydney

Dear IPART

Our family greatly prefers not to have the City merged with other Councils - Waverely Botany Randwick Woollahra.

We feel that in such a large grouping

- our issues and those of our neighbours would not be attended to
- large corporates would have a greater voice than individual households
- we would have less control over our rates and their increases
- the inevitable staff decreases would reduce our access to Councillors

We think our Waverley Council is able to stand on its own sustainably.

Please do not publish our names and contact details with this submission. I wish to remain anonymous.

Kind Regards
