Submission: Dear Sir/Madam, I object to this increase of rate variation that the Mid Coast Council is applying for with IPART. The community has not been consulted at all and has not had the opportunity to have its say about this issue. We have not received anything with our rate notice to inform us of this council's intentions to increase the rates and nothing was seen in the local newspaper explaining what the council was doing. It is not acceptable and the rate variation should not go ahead without proper consultation with the community.
