Your submission for this review:

I feel an exorbitant increase in our water costs is grossly unfair to the residents of Central Coast Council. Many of our residents over the last 18 months have experienced covid 19 lockdowns, loss of employment and the constant increase in the cost of living. We are already struggling to make ends meet. I am a pensioner and also paying a mortgage so an increase of this magnitude would be impossible for me to pay, and I am sure there are other residents like myself that would find this increase extremely hard to manage and still be able to maintain their household. Given Central Coast Council's management of funds as identified in the past I doubt that an exorbitant increase such as this would show any real improvements to the shire.
