Subject: Shoalhaven Council's proposed rate increase

I am writing to express my concern over the proposed 33% in rates in the Shoalhaven Council rates currently under consideration. I find it disturbing that there is a proposed rate increase even though the council (for example) does not as of yet have a green waste collection service. They are not providing value for the rates that they are already collecting. Therefore I am requesting that a long term strategy be implemented in council with justification forthcoming on any proposed increases.
