Your submission for this review:

I am a resident of the Hawkesbury area, and understand that Sydney Water may acquire the Councils wastewater assets at McGraths Hill and South Windsor. If this was to happen I would prefer that the cost of extending Sydney Water's wastewater services to the Hawkesbury area be shared among all of Sydney Water's customers. This is a fair and equitable solution that does not disadvantage Hawkesbury customers. It is important for Sydney Water to take over these assets to make the system fairer for everyone living in the Sydney metropolitan area. Upgrading these assets would exceed the current customers capacity to pay and shouldn't be their responsibility entirely. The wider community will benefit from these upgrades through improved water quality in the Hawkesbury River, and Sydney Water is better equipped to manage these assets into the future, which is better for the environment and the customers.
