

Fit for the Future Submission – Brian Todd

19 July 2015

Office in Charge IPART NSW

Dear Staff Member

Greater Taree City Council is in no way fit for the future. They are not even fit for the distant past. The Council is dysfunctional, wasteful, inefficient, distracted by unproductive bureaucratic process and not accountable.

Here are extracts from some of my correspondence to relevant GTCC and Departments:

2015

I read this today and note as follows:

2.4%

<http://www.gtcc.nsw.gov.au/assets/Main-Site/Files/BusinessPapers2015/agenda-june15.pdf>rate increase.

We see these increases every year and while this is lower than the trend, the overall amount we will pay will increase by 3.43%.

I also note the amount of reserves the council has continues at very high levels: \$33,900,000

The Lakes Way northern end resembles a goat track and I noted that funding had been made a while back in your advices for black spots. I just see this council drifting.

regards

Brian Todd
