Please leave your comments in the comment box below. Hello , Just moved to the central coast three weeks ago from Sydney . I am absolutely appalled at some of the road conditions and lack of resources at my local library . Now they want to increase rates by 10% each year to cover their own incompetence. No way, this is outrageous and we are totally against it . Until the council looks after their land next to our house by I will drag my feet in paying the increase . As an aged pensioner I did not factor this added expense in my budget .
